The Committee will undertake :—

1. To facilitate, encourage and arrange industrial conferences or meetings to be attended by men of affairs from any or all parts of the Empire in order to discuss questions of common interest with a view to regulating and co-ordinating the conditions of Empire trade and industry.
2. The dominant note of the Royal Colonial Institute's work is concisely described in its motto "United Empire." The Trade and Industry Committee exists to foster, stimulate and assist British Commercial and Industrial interests, with special regard to their imperial aspect as elements and factors of imperial union. ## GREAT PRODUCTIVE OPPORTUNITIES.

### VARIETY OF INDUSTRIES.

MINERAL, PASTORAL, AGRICULTURAL, HORTICULTURAL AND  
TIMBER RESOURCES.

SPECIAL INDUCEMENTS to DAIRY FARMERS and FRUIT-GROWERS.

THE great State of Western Australia, comprising nearly a million square miles of country, offers at the present time excellent opportunities to investors and to agriculturists, especially in dairy farming and fruit-growing. The progress in a great variety of industries during recent years has been remarkable, and the work of development has so far penetrated but a little way beyond the fringe of the possibilities. The present season, bright as it is to the settler with the assurance of a bountiful harvest and a heavy wool crop, is but a foretaste of the things which yet shall be when the full area of land adaptable for wheat-growing is brought under cultivation, when the rich timber lands of the South, barely touched yet for cultivation, are more widely cleared and brought under the plough and the spade. At present the Government are concentrating on the settlement of the South-West, and are paying especial attention to the development of dairying and fruit-growing. But a number of other industries are successfully carried on, and are rapidly expanding. In the wide areas east of the Darling Range wheat-growing, combined with sheep farming and mixed farming generally, is now conducted with excellent results, the yield of wheat having risen from 956,886 bushels in the season ended February 1902, to an estimate of 9,000,000 bushels for 1912-13. In the same division, but more to the west and south, there are vast forests of timber, which have provided the opportunity for an extensive industry in the sawing and preparation and export of hardwoods that are used for commercial purposes in various parts of the world. The timber export in 1911 was valued at £986,341, compared with £867,419 in 1909, and with £511,923 in 1907.

There is also a growing fruit industry in the Darling Ranges and in other parts of the South-West to the ultimate extension of which it would be difficult to set limits. Altogether over 65,000 cases of fruit were exported last year, as contrasted with 28,000 in the previous year, while about 21,000 acres of land are now under orchards and vineyards, and the area planted is increasing at the rate of 2,000 acres per annum. It is expected that about 90,000 cases of fruit will be exported this season.

Wool-growing and sheep-raising are carried on both in the South-West and North-West and in the decade 1902-11 the number of sheep in the State increased from 2,704,880 to 5,411,542. Expressed in another way, the number of sheep in the State has doubled within ten years. In the same period the number of cattle, largely in the far North, but now advancing also in the South, increased from 437,136 to 843,638, and thus nearly doubled. The export of wool in the season 1910-11 reached a value of £1,047,456.

Close cultivation of root and fodder crops is also carried out in the wetter portions of the South-West. Many parts of this district of Western Australia are eminently suitable for the development of a highly productive potato-growing industry, and the Government have

lately been doing much, including the importation of specially selected seed potatoes from England, to encourage the establishment of this form of culture. As illustrating its great potentialities, it is shown by the Department of Agriculture that in the latest year for which particulars are available, from 1,791 acres devoted to potato growing in Western Australia a total yield of 5,864 tons, valued at £73,300, was obtained, or an average yield per acre of 3·27 tons, for an average value per acre of £40 18s. 6d. Over a much larger area in Victoria the average yield was 2·60 tons, and the average value per acre £9 9s. 6d., while for the whole Commonwealth the average yield was 2·64 tons and the average value £12 16s. 2d. per acre.

But besides the farming avocations, which are now being extended rapidly, there is the Mining industry in the East and North-West, which has gained the greatest fame for Western Australia. Gold alone, since the year 1886, has been produced to the value of over 108 millions sterling, and about 23 millions has been paid in dividends by mining companies.

As the development of highly specialised machinery for the recovery of gold proceeds and railways are extended, it is to be believed that further opportunities for investment in this great industry will be presented, especially in the many low-grade propositions which are now only awaiting capital for their development.

Western Australia also produces many of the baser metals, such as Copper, Tin, Tantalite, Lead, &c., while the production of a sound coal is annually rising, and a successful bunkering trade with ocean-going vessels has been opened up.

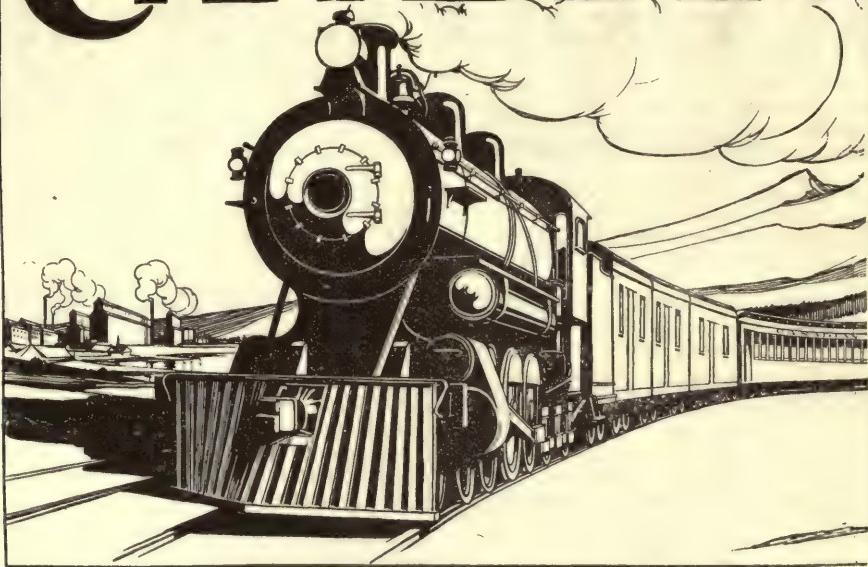

In connection with the dairying industry the Government have devised a scheme of liberal assistance for the settlers at Denmark, which will no doubt be carried further as its success justifies the adoption of a more general plan. The district of Denmark, once utilised for its hardwood timbers, is situated in a cool, regular, and beautiful climate in the extreme South of Western Australia, some distance from the port of Albany. This district is now being cut up by the Government for dairy-farming and the production of root crops.

In order to provide the settlers with the means to carry on this industry successfully and with marketing facilities the Government have authorised the Agricultural Bank to advance to them two-thirds of the purchase money for stock, to be repaid in instalments of 2s. a week, and the Agricultural Department will supply the use of stud bulls at a nominal fee. A State farm has already been established in the locality, and a creamery or butter factory is to be erected on this farm, at which will be purchased the whole of the settlers' milk or cream at current market rates. The butter factory is to be erected on an up-to-date model, in order that the settlers may be able at any future time to co-operate and build a similar one for themselves or take over the State factory. Railway communication with Perth, the capital, and Albany, is already established, and the settlers are so well satisfied with the Government scheme that already applications have been made for over 200 dairy cows, and as soon as the plan is in full operation it is anticipated that many times this number will be asked for.

For its pearl fisheries in the North-West the State has long been famous, and the value of the export of pearls and shell in 1911 was £340,764. The industries hitherto mentioned are already on a sound basis, and while many of them will expand and continuously afford openings for the employment of capital and labour, some of the most attractive opportunities are now presented for investment in secondary industries arising out of the rapid growth of primary pursuits. Examples are the woollen industry, in connection with which it should prove profitable to start mills; many industries, such as the local manufacture of implements—encouraged by special preferential legislation—in connection with wheat-growing, and jam-making as a bi-product of the fruit-growing industry. This form of production seems, indeed, to have exceedingly bright prospects. Western Australian apples, grapes and pears continue to obtain higher prices than any other on the London and Continental Markets, and there is a likelihood of a substantial trade being opened up with India.

So far as the occupation of land for cultivation is concerned, the terms offered by the Government are perhaps the most liberal in the world, and as there are vast areas still to be settled, the outlook before both primary and secondary industries is exceedingly bright. It would, indeed, be difficult to rival in any State in a similar stage of development the opportunities afforded for the remunerative employment of capital and labour that are now presented by Western Australia. Endowed by nature with a mild and benign climate, the State of Western Australia, especially in the fertile and well-watered South-West, is providing and will provide thousands of happy homes for British people who are building up a new and brighter Britain beyond the Seas.

## PREFACE.

IN presenting to the Fellows and Associates of the Institute the second issue of the Year Book, it is hoped that it may assist in spreading abroad a better knowledge of the aims and objects of the Institute and the work which is being done in promoting the closer and permanent unity of the Empire. The current issue has been extended in various ways, as, in addition to the information embodied in the edition for 1912, it contains the latest statistical information regarding all parts of the Empire, as well as a classified list of the newspapers and magazines which are to be seen in the Institute Building. The list of Fellows has grown considerably during the past year, and the geographical lists both of Resident and Non-Resident Fellows cannot fail to prove of service to the Fellows generally. Full particulars are also given regarding the competition for the Gold Medal of the Institute, and also of the Prizes for Essays which are offered by the Council to Universities and Secondary Schools.

Fellows are particularly requested to notify all changes in their addresses, so that the monthly Journal and other communications may be forwarded without delay.

FAÇADE

ROYAL COLONIAL INSTITUTE, NORTHUMBERLAND AVENUE

## II.—INTRODUCTION.

MORE than a generation has now passed since, in 1868, the Colonial Society was started. The Dominion of Canada had just come into being ; and, though not many openly agreed with John Bright that the continuance of the British connection was burdensome to Great Britain and humiliating to Canada, still there was a widely spread undercurrent of feeling that Canadian Confederation was a half-way house to peaceful separation. It was this kind of temper, more dangerous than open hostility, that the Colonial Institute sought to counteract. Most wisely its founders recognised that the best way of going to work was not to set on foot an actively militant political organisation. What was wanted was knowledge : knowledge in England of the boundless resources and true temper of the Overseas Dominions ; knowledge in the Colonies of their English kinsfolk, when once one has penetrated the outer crust. The Royal Colonial Institute (as it was named in 1870) became at once a club-house where persons from all parts of the Empire might exchange experiences, and an information bureau, whence the latest and most authoritative facts with regard to the Empire might be brought to the light of day. Starting with the modest number of one hundred and seventy-four members, the Institution so fully justified its existence that by 1880 it had over eleven hundred members. The great danger of such an organisation was that it should be run by men who disapproved of the action of their Colonial Governments, and were out of touch with Colonial public opinion ; the Royal Colonial Institute has been careful to draw new blood into its veins, and has never in any way identified itself with any one school of thought regarding Colonial questions. The Papers read in its winter sessions have been a perfect quarry of first-hand knowledge, freely placed at the disposal of the inquirer, whether his purpose be historical, statistical or practical.

But it may be asked, now that the Royal Colonial Institute has achieved such success in promoting fuller knowledge, and, on both sides, a very different temper—especially now that its example has been followed by so many Leagues and Societies, has not the time come when, so far as its original purpose was concerned, it might pronounce its *nunc dimittis* and leave to younger bodies the burden of the fray ? But it must be remembered that, especially in new countries, the condition of things is always rapidly changing, so that the truth of last year is the falsehood of to-day, and any record of facts and opinions requires constant modification and revision. But what institution could so efficiently carry on this work as the Institute, which in the past has done it so successfully ? Moreover, while the general tone of thought regarding Imperial questions is, on both sides, most satisfactory, and there is everywhere the desire to promote friendly social intercourse, there are still problems connected with the Empire, in the solution of which the Royal Colonial Institute can give a helping hand. It is a melancholy fact that, in spite of mutual goodwill and Colonial preferences, British trade within the Empire does not grow by leaps and bounds. The Royal Colonial Institute has set on foot an Empire Trade and Industry Committee. Its objects are to encourage such trade and industry by arranging for the delivery of addresses on financial, industrial and trade subjects by authorities before the Institute

itself and before Chambers of Commerce, trade bodies, and like institutions in the leading industrial centres. There is the further object of facilitating, encouraging, and arranging industrial conferences or meetings to be attended by men of affairs from any or all parts of the Empire, in order to discuss questions of common interest with a view to regulating and co-ordinating the conditions of Empire trade and industry.

The new departure is of too recent date to expect, as yet, many practical results, but it is manifest what a sphere of usefulness is here opened out, and how well adapted the Royal Colonial Institute is, by its situation and membership, to take the lead in such a movement, and already by means of this committee the British Consular service has been made available to the Overseas Dominions.

Again, there is the difficult subject of emigration. To a great extent indeed this question has been settling itself. Thus it is very striking how in recent years, without State action, the current of general British emigration has been diverted from the United States to the Overseas Dominions. At the same time there are many ways in which State action might be desirable. The Royal Colonial Institute has now a standing Emigration Committee representing both its own members and the leading emigration societies. This committee has recommended that an official committee shall be constituted consisting of representatives of the private emigration societies and of experts, including a chairman, nominated by the Government. This committee shall—

- (a) Advise on all general questions of policy affecting emigration.
- (b) Co-ordinate the emigration societies of the United Kingdom.
- (c) Take over the functions of the Emigrants' Information Office.
- (d) Deal with Labour Exchanges, Boards of Guardians, &c., on all matters connected with emigration.

(e) Deal with the High Commissioners, &c., in regard to questions of emigration. Again, on the question of the emigration of women and of children the committee has made recommendations of far-reaching importance. It has tendered evidence before the Dominions' Royal Commission, and has given special attention during the year to the subject of the organised emigration of Poor Law children. This is not the place to discuss the details of their proposals ; all that we are concerned with here is the vigour and vitality of the parent institution of which they are the testimony and proof.

Yet another new departure must be mentioned. Recognising that in these days of democracy the task of consolidating the Empire can no longer safely be left in the hands of the upper and middle classes, the Royal Colonial Institute is now seeking, by means of popular illustrated lectures, to bring home to the knowledge and the conscience of the people the resources of the Empire and the opportunities and responsibilities attending on its right use and development. This work is still in its infancy ; but it promises, if properly supported by the leading men in the great centres of population, to yield most valuable results.

But while the Royal Colonial Institute has been busily at work extending its activities in a practical direction, it has not forgotten its other function of being a store-house of knowledge. Some of us can speak with personal knowledge and gratitude of the benefit its admirable library has been in the pursuit of our studies. Nearly 100,000 volumes and pamphlets, not one of which does not relate to the objects of the Institute, are a boon, the value of which it is impossible to exaggerate ; especially when they can be consulted under the guidance of a courteous and helpful librarian. A special room has been set apart as a law library, which contains some 8000 volumes and statutes, law reports, treaties, &c. In the law library provision is also made for the storage and display of maps relating to all parts of the Empire. To give an idea of the

ENTRANCE HALL

Institute's resources it may be added that during the year 1912-13, 81,366 numbers of newspapers and magazines were received and filed. Considering the benefits of membership it is not astonishing to learn that the Royal Colonial Institute has now nearly 8000 Fellows, and that its growing importance, the widening of its scope and the increase of its membership have necessitated a great extension of its premises. The house in Northumberland Avenue has been almost entirely rebuilt on a larger area, and "as a result," we are told, "instead of the seven inconveniently small and inappropriate rooms formerly available, there are now twenty-five well-equipped rooms."

These things do not indeed go to the heart of the matter. It is possible for great things to proceed from mean and stuffy surroundings, and a sumptuous club-house does not always produce an active spirit; but when, as has been made manifest, the spirit is in the right place, it is surely well that the accessories of comfort and convenience shall be added.

There is one other subject, without mention of which any account of the Royal Colonial Institute would be deficient. Useful as had been the annual volume with its permanent record of the progress made during the year, it was generally recognised that so influential a corporation should possess its own monthly organ, reflecting the various sides of its work. An editor was forthcoming who had both a practical knowledge of the Empire and was a trained *littérateur*. UNITED EMPIRE is still in its youth; but already it has attained a wide circulation, and few will question the modest claim put forward by the Council that it "has from month to month enabled those interested in the various Overseas Dominions to keep in touch with the more important aspects of Imperial development." Such, then, being the various grounds on which the Royal Colonial Institute has more than made good the aims of its founders, there is no one who cares for the Empire and the Empire's well-being who will not gratefully repeat "*Esto perpetua.*"

H. E. EGERTON.

### III.—HISTORICAL SKETCH.

THE ROYAL COLONIAL INSTITUTE is first and foremost a non-sectarian and non-political organisation which exists for the purpose of stimulating the loyalty of all Britons towards the Empire, using that term to mean the United Kingdom with the Great Dominions and the Smallest Dependencies beyond the Seas. To foster the love of Oversea Britons for the Motherland and to cultivate in the breasts of residents of the Self-Governing Dominions, Colonies, and India the feeling that neither the accident of birth overseas, nor the fact that a wider sphere has been chosen by a Briton born in the United Kingdom can in any way affect his British citizenship so long as his home is still under the British Flag, is the great mission of the Institute.

The existence of the Royal Colonial Institute practically dates from June 26, 1868, when a meeting was held at Willis's Rooms, under the presidency of Viscount Bury, to promote the formation of a society which should assume, in relation to the Colonies, a position similar to that filled by the Royal Society as regards science, and the Royal Geographical Society as regards geography. The meeting, which comprised influential representatives of Colonial interests, and members of the Imperial Legislature who had taken a prominent part in the discussion of Colonial questions, unanimously agreed that it was desirable to establish an institution, above all mere party considerations, where persons from all parts of the British Empire might exchange experiences, and where trustworthy information might be imparted to all inquirers. A provisional

committee was appointed, which drew up rules—substantially the same as those now in operation—and reported to a general meeting on August 12, 1868, when the “Colonial Society” became constituted by the adoption of such rules for its government and the election of the first President and Council.

A deputation of the Council waited upon His Grace the Duke of Buckingham and Chandos, Secretary of State for the Colonies, and the Right Hon. Sir Stafford Northcote, Secretary of State for India, with the object of obtaining their official sanction and support, which was most readily conceded. Those Ministers undertook that the Governors of the several Colonies should be addressed in favour of the Institute, which undertaking was carried into effect by their successors in office, the Right Hon. Earl Granville and His Grace the Duke of Argyll. As a result of this action, a large number of valuable works illustrative of the resources and progress of the Oversea Dominions, Colonies, and India have been added to the library. Numerous contributions have also been received from the Colonial Office and the India Office, and for some years past full particulars of the constitution and objects of the Institute have been published in the Colonial Office List, “on account of the importance of the subject to Colonists generally.” The Institute is now officially included in the list of Institutions named in the Colonial Regulations, so that the whole of the Statutes of various parts of the Empire are regularly received.

On March 10, 1869, the inaugural dinner was attended by the Prime Minister (the Right Hon. W. E. Gladstone, M.P.), the Secretary of State for the Colonies (the Right Hon. Earl Granville), and many other distinguished guests, and was regarded as a most successful demonstration in favour of the Colonies and the Unity of the Empire.

The speeches at this banquet are of singular interest to-day. Mr. Gladstone’s reminiscences of the “Colonial Department,” in which he had served thirty-four years previously; Sir George Cartier’s attempt to explain Canadian Nationalism without wounding the susceptibilities of prejudiced Britons and his challenge to the United States as to the freedom of Canada under representative rather than democratic institutions; the reminder of Mr. Hugh C. E. Childers that sea-power and the Colonies are intimately connected, and that the sea is the connecting link and not a barrier between the sons of a sea-going race—all these long-forgotten speeches will repay the attention of the historical student who cares to trace the great dynamic forces of the century to their origin.

In June 1869 the prefix of the word “Royal” was graciously sanctioned by Her Majesty the Queen. Inconvenience arising from the similarity of the initial letters to those of the Royal College of Surgeons, the name of the Society was, by the vote of a general meeting on March 7, 1870, changed to the Royal Colonial Institute.

In July 1871 His Grace the Duke of Manchester was elected President, in succession to Viscount Bury, who retired, and in June 1878 His Royal Highness the Prince of Wales was pleased to accept that office, afterwards becoming Patron as King Edward the Seventh, the Duke of Manchester maintaining his connection with the Institute as one of its Vice-Presidents and Chairman of the Council up to the time of his death in 1890, when the office of Chairman of the Council was abolished. On his accession to the throne in 1910, His Majesty the King became Patron, and he was succeeded in the office of President by Field-Marshal H.R.H. the Duke of Connaught. During the year 1909, in view of the great extension of the work of the Institute, it was decided to revive the office of Chairman of the Council, Lieut.-General Sir J. Bevan Edwards, K.C.B., K.C.M.G., being unanimously elected to that office, and Sir Godfrey Lagden, K.C.M.G., to the office of Deputy Chairman.

GENERAL ROOM

In the year 1912 the Right Hon. Earl Grey accepted the office of President in succession to H.R.H. the Duke of Connaught, who was graciously pleased to become Vice-Patron.

In September 1882 Her Majesty the Queen granted to the Institute a Royal Charter of Incorporation, with perpetual succession and a common seal, in recognition of the fact that since its establishment it had " sedulously pursued the objects for which it was founded," and with a desire of " encouraging a design so laudable and salutary."

The national importance of imparting to the rising generation a fuller and more accurate knowledge of the British Dominions and their resources has from its foundation engaged the attention of the Institute, and every opportunity has been taken to urge upon educational authorities and other public bodies the need of giving greater prominence to the subject in the schools of the United Kingdom. A gold medal for research work, accompanied by a substantial honorarium, is offered by the Council annually to British subjects in all parts of the world, for the purpose of encouraging scientific study of the problems of Imperial Union. A series of prizes for essays has also been instituted as a means of stimulating the interest of students in the secondary schools and universities of the Mother Country in the history and potentialities of the Empire.

The Institute has never ceased to emphasise the fact that the Overseas Dominions afford a national outlet for the surplus population and capital of the Mother Country, and committees now deal with the questions of emigration and Empire trade and industry, their special functions being set forth in a separate section of this work. The education of the people of the Motherland as to the resources, trade, history and development of the Empire has been taken in hand by a special committee, and lectures are now being given in various parts of the United Kingdom with excellent results. In accordance with the objects for which the Institute was founded, it has for the past forty-four years taken a leading part in the national work of fostering and popularising the great principle of Imperial Solidarity throughout the length and breadth of the British Empire.

### RULES.

Corrected up to the Special Meeting of Fellows,  
March 17, 1913.

### OBJECTS AND CONSTITUTION.

1. THE ROYAL COLONIAL INSTITUTE is established to provide a place of meeting for all gentlemen connected with the Colonies and British India, and others taking an interest in Colonial and Indian affairs; to establish a Reading-room and a Library, in which recent and authentic intelligence upon Colonial and Indian subjects may be constantly available, and a Museum for the collection and exhibition of Colonial and Indian productions; to facilitate interchange of experiences amongst persons representing all the Dependencies of Great Britain; to afford opportunities for the reading of Papers, and for holding discussions upon Colonial and Indian subjects generally; and to undertake scientific, literary, and statistical investigations in connection with the British Empire. But no Paper shall be read, nor any discussion be permitted to take place, tending to give to the Institute a party character.

2. The Institute consists of Resident, Non-Resident, and Honorary Fellows and (subject as hereinafter mentioned) Associates. A Resident Fellow is a 'Fellow who

has his permanent home in the United Kingdom. A Non-Resident Fellow is a Fellow who has his permanent home outside the United Kingdom.

3. The Institute shall not make or distribute any gift, dividend, division, or bonus, in money, unto or between any of its Fellows.

4. The government of the Institute, and the management of all its concerns, are entrusted to the Council, subject to the Rules of the Institute.

5. Every Resident Fellow shall be eligible to fill any of the offices of the Council. Non-Resident Fellows shall, subject to the provisions of the Rules, be eligible to fill the office of Vice-President.

6. The Council shall be chosen from the Fellows, and shall consist of a President, Vice-Presidents, of whom not more than one-third may be selected from Non-Resident Fellows, twenty-four Councillors, a Treasurer, and a Secretary (when honorary). The Council shall have power to fill up any vacancies occurring in the above offices during the interval between the Annual Meetings; such *ad interim* appointments to be subject to confirmation at the next succeeding Annual Meeting.

7. A portion of the Council shall retire periodically, viz. the President every second year, and one-fourth, or the nearest number thereto and not exceeding the same, of the Vice-Presidents, and one-eighth, or the nearest number thereto and not exceeding the same, of the Councillors every year in rotation; the names of those so retiring to be previously announced by the Council, as hereinafter provided. The President and Vice-Presidents so retiring shall be eligible for re-election, but the retiring Councillors shall not be eligible for re-election till one year shall have elapsed.

8. The Vice-Presidents and the Councillors to retire in any year shall be those who have been longest in office. As between two and more who have been in office an equal length of time, the Vice-President or Councillor, as the case may be, to retire, shall be determined by lot. The length of time a Vice-President or Councillor has been in office shall be computed from his last election. In the case of Non-Resident Vice-Presidents, the Council may, if they think it advantageous or desirable, exempt any such Non-Resident Vice-Presidents from such retirement by rotation, but this shall not affect the total number of retirements during any one year.

9. If any Councillor shall fail to attend the Meetings of the Council for six consecutive calendar months, except by leave of the Council, the office of such Councillor shall thereupon become vacant.

#### ADMISSION, &c., OF FELLOWS.

10. Every gentleman, being a British subject, desirous of admission into the Institute as a Fellow, must be proposed and recommended according to the Form No. 1 in the Appendix hereto; and such recommendation must be subscribed by two Fellows at least, one of whom must certify his personal knowledge and approval of such candidate.

11. The certificate thus filled up shall be delivered to the Secretary, and shall be exhibited in a conspicuous place in the Rooms of the Institute for at least one week previous to election, in order that any Fellow objecting to the Candidate may communicate with the Council thereon.

12. The election of Fellows is entrusted to the Council, and the names of those so elected shall be regularly announced from the chair at each Ordinary Meeting.

13. Notice of Election shall be sent within three days to every newly elected Fellow, together with a copy of the Rules of the Institute and a List of the Fellows

and Associates. But no election of a Fellow shall be complete, neither shall the name of any person so elected be printed in any list of the Institute, nor shall he be entitled to exercise any of the privileges of a Fellow until he shall have paid his first year's subscription, and his admission fee, or shall have compounded for the same as hereinafter provided for; and unless these payments be made within three calendar months from the date of election, such election shall be void; this time may, however, be extended at the discretion of the Council.

14. Gentlemen resident in the Colonies or India, or elsewhere out of the United Kingdom, being British subjects, may be elected as Non-Resident Fellows in the same manner as Resident Fellows. Should any such Non-Resident Fellow come to the United Kingdom permanently to reside, he shall be required to pay an admission fee of Three Pounds (less the sum, if any, paid by him as an admission fee on election as a Non-Resident Fellow), and become a Resident Fellow of the Institute; but the last mentioned additional fee shall not be payable by any such Non-Resident Fellow of fifteen years standing or upwards.

15. The Council shall have the power of appointing as Honorary Fellows, Foreigners or Colonists of distinction, or other persons, whose association with the Institute may be considered advantageous; but such Honorary Fellows shall not be entitled to vote nor fill any office in the Institute.

16. Any Fellow may withdraw from the Institute by signifying his wish to do so by letter, addressed to the Secretary at the rooms of the Institute; provided always that such Fellow shall continue to be liable for his annual subscription for the year in which he signifies his wish to withdraw. He shall further continue liable for such annual subscription until he shall have discharged all sums, if any, due by him to the Institute, and shall have returned all books or other property borrowed by him of the Institute; or shall have made full compensation for the same, if lost or not forthcoming.

17. The name of the Institute shall not be used as an address on any circular letter, report, correspondence, or document of a business character intended for publication, or any prospectus of a public company.

18. Whosoever there shall appear to the Council to be cause for the removal of the name of any Fellow of the Institute from the List of Fellows, or on receipt of a requisition to that effect with the reasons stated and signed by not less than twenty Fellows of the Institute, the subject shall be taken into consideration by the Council; and if the Members of the Council present in each case and being not less than twelve in number shall by a majority of not less than three-fourths determine to remove such Fellow, his name shall be cancelled in the Register of Fellows, provided that no such resolution shall be acted upon in the case of a Life Fellow unless the resolution of the Council to remove such Fellow shall be confirmed by an ordinary majority at a subsequent Meeting of the Council at which not less than twelve Councillors are present.

#### FEES AND SUBSCRIPTIONS.

19. Every Resident Fellow shall, on his election, be required to pay Three Pounds as his admission fee, and Two Pounds as his annual subscription for the year ending on the 31st December then next ensuing; or he may compound for his annual subscription, either at his entrance by the payment of Twenty Pounds, or after the payment of five or more annual subscriptions by the payment of Fifteen Pounds.

20. Every Non-Resident Fellow shall, on his election, be required to pay one Guinea as his admission fee, and One Guinea as his annual subscription for the year ending the 31st December then next ensuing ; or he may compound for such subscription by the payment of Ten Pounds ; or after the payment of twenty or more annual subscriptions by the payment of Five Pounds. Any Non-Resident Fellow who shall have become a Resident Fellow and wishes to compound, may do so by the payment of Twenty Pounds, or, if he shall have compounded as a Non-Resident Fellow, by the payment of the same sum as would have been required from a Resident Fellow, deducting the amount already paid on his compounding as a Non-Resident Fellow.

21. Any Resident Fellow absent from the United Kingdom for the whole of any calendar year shall be liable to pay the Non-Resident Fellow's subscription of One Guinea only, if he shall have given notice in writing to the Secretary of his intended absence.

22. Any Non-Resident Fellow arriving in the United Kingdom, and remaining in the United Kingdom for a period of twelve months, shall pay the Resident Fellow's subscription of Two Pounds per annum (less the amount already paid as a Non-Resident Fellow for that year), and shall continue to pay the same during his temporary stay in the United Kingdom.

23. The Council shall have the power of electing as a Resident Fellow or as a Non-Resident Fellow any person who, being a British subject, has been previously appointed as an Honorary Fellow and that without his becoming liable to any entrance fee, but he shall upon his election become liable to the appropriate annual subscription and to observe the Rules of the Institute.

24. All subscriptions shall be due and payable on the 1st of January in each year.

25. No Fellow shall be entitled to vote, and no Fellow shall be entitled to enjoy any other privilege of the Institute so long as he shall continue in arrear. Honorary Fellows are not required to make any payments. The amount of annual subscription to be paid by Fellows absent from England, or joining late in the year, or for a limited time, may be varied by the Council.

26. A List of the Fellows who shall be in arrear at the time of the Annual Balance of the Accounts of the Institute shall be laid by the Treasurer before the Auditors to be certified by them.

Once in every year the name of every Resident Fellow in arrear for three months, or, in the case of a Non-Resident Fellow, for twelve months, together with a statement of the arrear, shall be reported to the Council by the Finance Committee, and immediate notice of the same, with an account of such arrear, shall be forwarded to each such Fellow, whose name shall have been so reported, at his last known address. If the arrear be not paid within one calendar month, or, in the case of a Non-Resident Fellow, within twelve calendar months from the date of such notice, or within such further time as the Council may grant upon special cause to them shown, the name of the Fellow so reported, together with a statement of the arrear, shall be suspended in the Rooms of the Institute. If the arrear shall not be discharged within three months after such suspension, the Council may remove the name of such Fellow from the List of Fellows.

31. The Accounts of the Institute shall be from time to time examined by the Council, who shall present and cause to be read to the Annual Meeting a complete statement thereof, together with a report on the general affairs of the Institute during the preceding year.

32. The Council shall, from time to time, publish the proceedings and transactions of the Institute, and accompany them with maps, papers, and other matter, as occasion may require.

33. Each Fellow shall be entitled to a copy of the publications of the Institute ; but the mode of distribution shall be decided by the Council.

34. The Council shall, so soon as convenient, establish a Library, Reading-room, and Museum, to which all Fellows, and strangers provided with an order from a Fellow, shall be admitted, under such restrictions as may appear to the Council necessary.

35. The Council may appoint persons, not being Members of the Council, to be salaried Officers, Clerks, or Servants, for carrying on the necessary concerns of the Institute, and may define the duties to be performed by them respectively ; and may allow to them respectively such salaries, gratuities, and privileges as to the Council may seem proper ; and may suspend or discharge any Officer, Clerk, or Servant from office, whenever there shall seem to them occasion for so doing.

39. The Council may refer particular subjects to Committees, and such Committees shall report to the Council the result of their proceedings.

40. All Committees shall be appointed by the Council. The President, Chairman of the Council, and Secretary (when honorary) shall, *ex officio*, be Members of all Committees.

41. No act, order, or resolution of any Committee shall bind the Institute unless it be done or made by the direction and authority of the Council, or be ratified by them.

43. The President, when present, presides at all Meetings of the Council and of the Fellows. The Council shall annually elect a Chairman of the Council, who shall hold office for one year, and shall be eligible for re-election, and shall preside in the absence of the President. 45. It is the duty of the Chairman of the Council, conjointly with the Council, to consider and resolve on the names of Fellows who are to be recommended at the Annual Meeting to fill up all vacant offices.

46. When prevented from being present at the Meetings of the Fellows or Council, or from otherwise attending to the current business of the Institute, the Chairman of the Council will be expected to give timely notice thereof to one of the Vice-Presidents, or, in their absence, to some other Member of the Council, or to the Secretary, in order that his place may be properly supplied.

47. The President, or, in his absence, the Chairman for the time being, shall have power to rule and regulate the discussions arising at any Meeting of the Institute.

48. In all Meetings of the Institute and Council, except in the cases otherwise provided for, the decision of a majority of the Fellows voting shall be considered as a decision of the Meeting, the President or Chairman having a casting vote, in addition to his own vote.

## TREASURER.

49. The Treasurer has special charge of all Accounts, and shall see to the collection of all sums of money due to the Institute, which, when received, shall be immediately paid to the Bankers of the Institute.

50. In concert with the Secretary, the Treasurer shall keep a List of the Fellows of the Institute, with the name and address of each accurately set forth, which List, with all Books of Account, shall be laid on the table at every Ordinary Meeting of the Council.

51. He shall pay all Accounts due by the Institute, as soon as they have been examined and approved by the Council. 55. At the Ordinary Meetings of the Institute nothing relating to its Rules or Management, except as regards the election of Fellows, shall be brought forward, unless the same shall have been announced in the notice calling the Meeting, or be otherwise provided for in these Rules. But the Minute-book of the Council shall be on the table at each Meeting, and extracts therefrom may be read to the Meeting on the requisition of any Fellow.

56. No paper shall be read at any Ordinary Meeting of the Institute unless it shall have been approved of by the Council or by the Committee on Papers and Publications ; but this approval shall not be taken as expressing an opinion upon the statements made or the arguments used in such Paper.

#### SPECIAL MEETINGS.

57. The Council may at any time call a Special General Meeting of the Institute, and it shall be imperative on the Council to summon such Meeting, whenever required in writing so to do by at least twenty-five Fellows of the Institute.

58. A week's notice at least of the time when, and the object for which, every Special Meeting is to be holden shall be sent to every Resident Fellow and to every Non-Resident Fellow of the Institute who has registered an address for service in the United Kingdom ; and no other business than that of which notice has been thus given shall be entered upon or discussed at such Meeting.

59. A Special General Meeting, convened as herein provided, may be holden on any one of the days appointed for the Ordinary General Meetings, in which case the special business shall be entered upon immediately after the ordinary business of the day is closed.

of the Council, to hear the President's Address, to announce the result of the voting for the election of Fellows to fill the vacancies on the Council, and to consider such business as shall be brought forward by the Council or with the sanction of the Council, and which shall have been stated in the notice convening such Meeting.

65. For the purpose of filling the vacancies annually occurring under the provisions of Rule 7 in the Council, the Council shall prepare a List of Fellows, to be nominated by them as suitable to fill the vacancies to occur at the end of the year in the offices of President, Vice-President, Treasurer, and Councillors. The Council shall nominate a sufficient number of Fellows to fill the vacancies for that year, and then there shall be added to such List the name of any Fellow nominated since the last Annual General Meeting in writing by not less than twenty Resident Fellows for the office of Councillor, the consent in writing of such Candidate having been first obtained and forwarded with the nomination to the Secretary at least twenty-eight days previous to the date of the Annual Meeting. Provided always, that no Resident Fellow (who is not a member of the Council) may nominate more than one Fellow for the office of Councillor in any one year. Such List shall be the Voting List for the Annual Election. If no Fellow shall be nominated for the office of Councillor aforesaid in addition to the nominations by the Council, the Fellows nominated by the Council to fill the vacancies in the various offices for that year shall be deemed respectively elected without any ballot being necessary, and the Voting List need not be printed and circulated. If there shall be additional nominations for the office of Councillor the Voting List shall be printed, and a copy thereof sent by post, with all requisite instructions for voting and an official envelope, with the notice convening the Annual Meeting, to every Resident Fellow and every Non-Resident Fellow of the Institute who has registered an address for service in the United Kingdom, and shall be returned in the official envelope to the Secretary, duly filled up and signed by such Fellow, at least three clear days before the Annual Meeting. At the Ordinary Meeting next before each Annual Meeting two Fellows shall be chosen to act as Scrutineers for the purpose of the voting for the ensuing year, one of whom shall be nominated and appointed by and on behalf of the Council, and the other by and on behalf of the Fellows. The Scrutineers so appointed whenever a ballot takes place shall, prior to the Annual Meeting, open the official envelopes received by the Secretary containing the Voting Lists and count the votes and report in writing to the Council the names of those duly elected, together with the names of those, if any, for whom an equality of votes may have been cast. In the event of an equality of votes, the result shall be determined by vote of the Council on the day of the Annual Meeting. Any Voting List on which a Fellow has voted for a number, either more or less, than the necessary number of persons to fill up the vacancies in the offices of President, Vice-Presidents, Treasurer, and Councillors respectively, shall be rejected by the Scrutineers. The Notice of Meeting and the Voting List shall be in the form set forth in the Schedule to these Rules, or as near thereto as may be.

66. The chair shall be taken at the hour appointed in the Notice of the Meeting, or as soon thereafter as twenty Fellows shall be present.

69. Every Associate shall on election and on every succeeding 1st day of January pay £1 as his or her annual subscription for the current year ending on the 31st December next ensuing.

70. The provisions contained in the under-mentioned Rules shall apply to Associates, but nothing in this or any other Rule shall confer upon Associates any privileges beyond those conferred by Rule 67. The Rules specially last above referred to are Nos. 13, 16, 17, 18, 25, 26, and 27.

#### ALTERATION OF RULES.

71. Any alteration in these Rules, recommended by the Council, may be proposed at the Annual Meeting, or may be submitted at any Ordinary or Special Meeting, notice thereof having been given under the provisions of Rule 55, provided that such proposed alteration shall have been exhibited in a conspicuous place in the Rooms of the Institute, for at least one calendar month previous to the Meeting at which it shall be submitted.

72. Any twenty-five Fellows may propose to the Council any new Rule, or the alteration or repeal of any existing Rule, by letter addressed to the Secretary ; and, if dissatisfied with the answer of the Council, they may require that their proposition be referred to a Special General Meeting, which the Council shall convene for that purpose within one calendar month after receiving such requisition.

**FORM OF BEQUEST.**

---

I bequeath the sum of £              to the ROYAL COLONIAL INSTITUTE, Incorporated by Royal Charter 1882, and I declare that the receipt of the Treasurer for the time being of the said Corporation shall be an effectual discharge for the said Bequest which I direct to be paid within        calendar months after my decease, without any reduction whatsoever, whether on account of Legacy Duty thereon or otherwise, out of such part of my estate as may be lawfully applied for that purpose.

*Those persons who feel disposed to benefit the Royal Colonial Institute by Legacies are recommended to adopt the above Form of Bequest.*

**V.—THE INSTITUTE BUILDING.**

In the year 1869 the Institute occupied two rooms in the Westminster Palace Hotel, temporary office-room having been previously given in Victoria Chambers by Sir George Verdon, a Member of the Council. In the following year, rooms were acquired at 26 Suffolk Street, Pall Mall East. In 1871 the subject of house accommodation was again considered, and on November 20 of that year three rooms, constituting the first floor of 15 Strand, were engaged at an annual rental of £150. This accommodation was extended by taking in the upper floor of that house on January 7, 1873.

In the year 1883 it was decided to acquire a permanent home for the Institute in lieu of the very inadequate premises hitherto occupied. The lease of a site in Northumberland Avenue—the freehold of which has since been purchased—was secured, and, after a total expenditure of £50,000, part of the present substantial and commodious building was occupied in 1885.

The growing importance of the Institute, the widening of its scope, and increase of its membership rendered extension of the premises in occupation a matter of pressing urgency, and in June 1910 the opportunity was afforded to absorb and consolidate the whole property for the use and benefit of the Fellows.

Under a reconstruction scheme the premises in Northumberland Avenue were almost entirely rebuilt, with the idea of providing more suitable and adequate accommodation. As a result, instead of the seven inconveniently small and inappropriate rooms formerly available, there are twenty-five well-equipped rooms, and the building as it now stands consists of five stories apportioned as follows: In the basement is the parliamentary library, and library store-rooms, together with lavatories, &c. On the ground floor is the entrance-hall, on the left of which is a general-room in which smoking is allowed and the daily papers, writing materials, &c., are available. On the right is a reception-room in which ladies, as well as the Fellows, can obtain tea and coffee, and meet their friends. On the right again are the hall porter's lodge where Fellows obtain their correspondence, and the general office, in which is the chief clerk's room. On the mezzanine floor is the Secretary's department. The general library occupies the whole of the first floor. On the half-landing between the first and second floors is the law library and map-room. On the second floor, occupying the whole of the frontage to Northumberland Avenue and the portion of the Craven Street premises, is the newspaper-room, a spacious apartment in which the newspapers, official gazettes, &c., from all parts of the Empire are regularly filed. On the third floor are the council-room and smoking-room, and on the fourth floor the editorial department, the Empire lectures department, a typewriting room for the use of the Fellows where letters can be dictated and typed, and the housekeeper's quarters.

**VII.—PUBLICATIONS.****ANNUAL VOLUME OF "PROCEEDINGS."**

IN the year 1869 the first volume of the "Proceedings of the Royal Colonial Institute" was issued. It contained a complete report of the meeting called by public advertisement for the purpose of adopting measures for forming an Association to be called the Colonial Society, at which speeches were made by Viscount Bury (afterwards the Earl of Albemarle), the Right Hon. Chichester Fortescue, M.P., Mr. Leonard Wray, Mr. A. H. Louis, the Marquis of Normanby, Mr. Baillie Cochrane, M.P., Sir H. Drummond Wolff, Mr. Edward Wilson, Mr. W. B. Hume, Sir Charles Nicholson, Mr. Henry Blaine, Mr. Marsh, M.P., and Mr. Selim Jackson. A full account of the proceedings at the inaugural dinner, at which Viscount Bury presided, also appeared in the volume. It was a memorable occasion in view of the fact that a large number of the leading politicians of the time representing the Motherland and the Overseas Dominions, Colonies and India were present, including Mr. Gladstone, Earl Granville, the Duke of Manchester, Sir Bartle Frere, Sir Charles Nicholson, Sir George E. Cartier, Sir Charles Clifford, Sir George Verdon, Sir George Macleay, Captain Charles Sturt, Sir James A. Youl, Mr. W. C. Wentworth, and many other distinguished men. In the report of the inaugural meeting, which was held in the Theatre of the Institution of Civil Engineers on March 15, 1869, Viscount Bury referred at some length to the great increase in the number of scientific and literary institutions which was observable at that time, and emphasised the fact that in his opinion an unnecessary number of institutions differing only slightly from each other in the objects which they professed to aim at, frittered away in the expenses of management funds which, under a system of cordial co-operation, would have been available for more extended and practical usefulness. He claimed that there was no society or body of men in existence in England dealing with the one great object of the Society—the diffusion of accurate information upon Colonial subjects among our countrymen. The first Paper read before the Institute dealt with "The Relations of the Colonies to the Mother Country," which was written by Mr. W. Westgarth, and is a subject that has always occupied a prominent place in the annual programme of the Institute. The Institute, through its publications, has done a vast amount of valuable work, more especially in diffusing accurate information to those in this country desiring to gain a knowledge of the various Overseas Possessions, as well as in shaping public opinion by quiet and steady educational work. The first volume of the "Proceedings" contained 216 pages, and the second 166. In succeeding years the size of the volume of "Proceedings" varied between 400 and 500 pages. The "Proceedings" continued to be issued until the year 1909, when they were replaced by a monthly journal entitled **UNITED EMPIRE**. Forty volumes in all were issued.

**THE "JOURNAL."**

In the year 1890 it was decided to issue an additional publication to be known as the "Journal of the Royal Colonial Institute," to be published in advance of and in addition to the annual volume of "Proceedings." The first number appeared in December 1890, and it was issued during eight months of each year, viz. from December to July inclusive, until December 1909. The number of volumes issued was nineteen.

**" UNITED EMPIRE."**

During the year 1909, it having been decided that a review, or magazine, would be one of the most effective means for widening the sphere of influence of the Institute and increasing its popularity and usefulness, a new monthly journal, entitled **UNITED EMPIRE**, was issued on January 1, 1910, which superseded both the annual volume of "Proceedings" and the "Journal." This review is designed to traverse as far as possible the whole field of Imperial activities, and cannot fail to prove of advantage to the trader, manufacturer, and farmer, as well as to officials, politicians and others in all parts of the Empire. The yearly volume averages about one thousand pages, and contains numerous maps, illustrations and diagrams. Its contents comprise the Papers read at the meetings of the Institute, articles contributed by recognised authorities on Imperial questions, editorial notes, &c. Special sections are devoted to reviews and notices of books, pamphlets, &c., relating to all parts of the Overseas Empire; to information regarding Empire trade and industry; and to Greater Britain notes. The journal, which is not only sent to every Fellow and Associate of the Institute, but to institutions and clubs throughout the Empire, is edited by Mr. Archibald R. Colquhoun.

---

**VIII.—MEETINGS.**

THE ordinary general meetings of the Institute at which Papers are read or addresses delivered are held on the second Tuesdays during the months of November to June at 8.30 P.M. Afternoon meetings for the same purpose are also held during the above-mentioned months at 4 P.M. The Papers are often illustrated by lantern slides, and the subjects are so selected as to embrace all parts of the Overseas Empire. A discussion takes place upon all occasions. The evening meetings are preceded by a dinner, which takes place at 7 o'clock, and is attended by Fellows and their friends, both ladies and gentlemen, and so assists in promoting acquaintanceship amongst them. #### IX.—THE LIBRARY.

THE library of the Royal Colonial Institute contains over ninety thousand volumes and pamphlets relating to the British Dominions, Colonies, and India, or discussing problems of administration and colonisation. One of the objects for which the Institute was founded was the formation of such a library, but owing to lack of funds little progress was made until the Council were in a position to vote a small annual grant. In 1881, thirteen years after the foundation of the Institute, the library only contained 2500 volumes, but from about the year 1886 substantial progress was made, so that at the present time it can claim to possess the most complete collection of Colonial literature brought together under one roof. Although many valuable and necessary books were annually purchased, the substantial increase of recent years is largely attributable to donations from the various Overseas Governments and India, the Secretaries of State, the different learned societies, Chambers of Commerce, and other public bodies, and from publishers and authors in all parts of the Empire. Co-operation from these quarters has enabled the Institute to gather together a unique collection which is of great value to students of Empire topics and to all those who are seeking information with regard to the administration, resources, trade, history, law, ethnology, and general conditions of the wide domains under the British flag. The library, the main portion of which is situated on the first floor of the Institute building, is divided into as many sections as there are separate administrative units within the Empire. These sections are further subdivided according to subjects, so that all the books on a given topic are found together on the shelves. To take a specific example: under Canada will be found the books dealing with the history, agriculture, fauna, education, &c., of the Dominion, each contained in separate divisions. The parliamentary library, which contains the Blue-books, parliamentary reports, debates, sessional papers, government gazettes, and general official literature issued by the Overseas Governments, is contained in the basement. In these official publications

LIBRARY

LIBRARY

is hidden away an immense amount of information of value to students of sociology, history, ethnology, &c. Of specially important publications may be mentioned the various geological, archaeological, ethnological, and other surveys, the gazetteers issued by the Indian Government, and the different departmental reports. This room has been fitted with rolling book-stacks which contain long sets of periodicals, agricultural journals, and publications of a similar nature, including a collection of colonial municipal reports, regulations, and mayors' minutes. On the ground floor are some of the proceedings of the learned and literary societies, many of which are of great importance. It is only necessary to name a few, such as the Royal Society of Canada, the Royal Societies of Victoria and other Australian States, the Royal Geographical Societies of the different portions of the Empire, as well as the British and Foreign Geographical Societies, such as those of London, Liverpool, Paris, Lisbon, Vienna, Madrid, and Antwerp. Next to the general library, on the first floor, is situated the law library and map-room. This portion of the library is one of its most valuable sections, for it not only contains almost complete sets of the statutes of the Dominions, Colonies, and India, but also long sets of the various law reports and law journals and many treatises on special aspects of Colonial law.

The practical importance of the law library has been demonstrated by the frequent reference to its contents by lawyers engaged upon Privy Council and other legal work connected with the Dominions and Crown Colonies. In the law library is also kept an extensive collection of several thousand maps and charts, presented mainly by the Admiralty, the War Office, and the Overseas Governments.

The additions to the library are catalogued upon cards, and every item which deals in any way with the British Empire, be it book, pamphlet, or magazine article, is carefully noted for future reference. The first printed catalogue was published in 1881, and the last in 1901, since which date no catalogue has been issued for distribution. The printed catalogues form a fairly complete bibliography of the literary activities of the Empire, and the manuscript catalogues reveal the immense range of literature published during recent years. Amongst the treasures of the library are many books of great value and rarity, both bibliographically and historically. The collection of drawings made by William Westall, A.R.A., who accompanied Flinders on his expedition to the shores of Australia in 1801-2, is unique, as are those of scenes in the Transvaal and in Rhodesia made by A. A. Anderson. The collection of books relating to Australia is extensive, and contains the chief collections of voyages to the South Seas, a valuable set of Gould's Birds, and many scarce pamphlets. The Dominion of Canada is also well represented, and amongst the rarer books may be noted Colden's "History of the Five Nations" (1747); Jeffrey's "Natural and Civil History of the French Dominions in North and South America" (1761); Rogers' "Account of North America" (1765); Sagard's "Le Grand Voyage du Pays des Hurons" (1632); Bacqueville's "Histoire de l'Amerique Septentrionale"; Charlevoix' "Histoire de La Nouvelle France" (1744), and the celebrated series of the Jesuit Relations. The literature relating to the West Indies is extensive, and contains Davies' "History of the Caribby Islands" (1666); Burton's "English Empire in America" (1685); Blome's "Jamaica" (1672), and Hickeringill's "Jamaica Viewed," an extremely rare publication issued in 1661. The African section, Eastern, Western, and Southern, is of great interest. Here are the sumptuous volumes issued by Ogilby in 1670, containing some of the earliest illustrations of the Cape, the quaint literary hoax written by Damberger in 1801, Kolbe's "Present State of the Cape" (1718), and the works of the principal African voyagers and discoverers, such as Sparmann,

Paterson, Barrow, Lichtenstein, Le Vaillant, Latrobe, Burchell, and many others. A splendid edition of Daniell's "African Scenery and Animals," and other rare illustrated works add distinction to this section of the library. The Indian section also contains many of the more important works relating to India, and a special section is devoted to Egypt and the Sudan. Nor are the smaller dependencies neglected. There is quite a collection of literature relating to the Falkland Islands, and even such small islands as the Cocos-Keeling group and Fanning Island have their section in the catalogue as well as on the shelves. Of general works of travel attention may be directed to those known as Hakluyt (1598-1600); Purchas (1625-6); Churchill (1732); Harleian (1745); Harris (1705); Callander (1788); Burney (1803-17); Pinkerton (1808); Astley (1745-7); Kerr (1811-24); Ramusio (1554-83), and Prévost (1746-70), and the publications of the Hakluyt, Navy Records, Linschoten, and similar societies. Among special sections may be mentioned one containing the prose and poetic writings of Colonial *littérateurs*. The importance of the growing national literatures of Canada, Australia, and even South Africa is attested by the size of the special sections. There is also a botanical section in which the chief works on the floras of the Colonies are kept, and a language section containing publications on and in native languages is being formed. A journey round the bookshelves reveals the greatness of the British Empire, and brings home in a better way than can perhaps be done elsewhere the vast amount of literature that has been written about the British possessions. The library is becoming more and more known to literary workers, and many well-known works on subjects of colonial and imperial interest have been written within its walls.

#### X.—THE NEWSPAPER-ROOM.

SEVEN hundred and twenty-five newspapers, journals, and magazines are received and filed at the Institute. Most of the monthly and quarterly magazines are kept in the library or on tables in the law-room, but the newspapers and weekly journals are displayed on stands in the newspaper-room. They include periodical publications from every portion of the British Empire, which are arranged in different sections, and can be easily and quickly found. It may be stated that almost every newspaper of any importance is received, many of them being presented by their publishers. Fellows from overseas and Resident Fellows who have returned to the Mother Country, find the newspaper-room one of the most useful features of the Institute, for by means of the files of current papers they are enabled to keep in close touch with events in the portion of the Empire with which they are connected. No other institution has so good a display of Colonial periodical publications. It would be invidious to point out any special paper or journal, but attention may be directed to the various classes of papers that are filed in this room. First are the daily newspapers published in the capitals and chief cities of the Empire, and reflecting the political and social life of their respective spheres. The majority of these are, after the expiration of one year, handed over to the British Museum for permanent storage, and Fellows of the Institute may always consult back files on presentation of their card to the Museum officials. Then there are the official gazettes from every State in the Empire,

NEWSPAPER ROOM

LAW LIBRARY AND MAP ROOM

which are kept permanently in the Institute so that they may be available for reference at any time. Many important trade journals, both of a technical and commercial character, are also received, and by their aid the business man is able to follow the different commercial movements in the Empire. There are in addition a number of papers and magazines of a special character, relating to medicine and tropical hygiene, mining, engineering, and tropical products; whilst the magazines include the chief British and overseas monthlies, and reflect every phase of thought. The magazines also include the agricultural journals of the different States, the periodical journals of the chief British, Colonial, and foreign learned societies, the journals of the principal geographical societies, a number of reviews dealing with anthropological and linguistic topics, and the various law reports and legal journals published in the Overseas Dominions.

## XI. LIST OF NEWSPAPERS AND MAGAZINES.

This List does not include the large number of Transactions of Societies received in bound volumes, nor official publications appearing at irregular intervals.

The asterisk denotes periodicals that are kept in the Library for permanent reference; the others, after being kept on file, are sent to the British Museum, where they are available for the use of Fellows.

## XII.—GOLD MEDAL FOR SCIENTIFIC INQUIRY.

THE Council of the Royal Colonial Institute have resolved to establish a Gold Medal to be offered annually for the best research monograph on some subject, which the Council will determine annually, bearing directly upon the practical problem of the closer and permanent union of the Empire. In addition to the medal a grant of one hundred guineas will be made to the successful competitor, together with Honorary Fellowship of the Institute for life. Apart from the successful monograph, the Council may award pecuniary acknowledgment for monographs of special merit. The aim of the Council is to encourage scientific inquiry into such particular questions directly affecting the Imperial problem as may seem susceptible to that mode of treatment. The theme for the current year has been selected with reference to the immediate phase of the Imperial movement, and is stated as follows :—

“The interaction, if any, between the economic interests of a State and its foreign relations, with special reference to the question whether, or how far, the self-governing States of the British Empire (with or without a more centralised system of government than it now has) could co-operate permanently for the purpose of defence without co-operating for the purpose also of trade.”

### REGULATIONS.

The Competition shall be governed by the following Regulations :—

1. The Competition is open to British subjects of either sex.
2. The monographs must be received at the Institute, addressed to the Secretary and marked on the envelope “Research Medal,” not later than the following dates :—

Country of Origin.	Latest Date.

South America, West Indies, and adjacent places . . .	January 22, "

3. The monographs must be in the English language, typed on one side only of foolscap paper, with a margin on the left-hand side.
4. Each monograph to be marked with a motto or other distinguishing sign—not being the name of the writer—and accompanied by a sealed envelope bearing a similar motto or sign, and containing the full name and address of the writer of the monograph.
5. Monographs may be accompanied by appendices such as bibliographies, analyses, charts, tables, statistics or other tabulated information of a kind likely to be useful to later students of the same subjects. In arriving at their decision the Examiners will take account of the value not only of the monograph itself but also of any accompanying appendices.
6. Monographs should be of a length not exceeding 25,000 words or thereabouts exclusive of any appendices.

#### XIV.—LOCAL COMMITTEES AND LOCAL BRANCHES.

In the Regulations the word Council means the Council of the Royal Colonial Institute.

A Local Committee of the Institute may be constituted in any town or district of the United Kingdom, in accordance with Regulations to be from time to time framed by the Council of the Institute.

The function of a Local Committee is to further the objects and aims for which the Institute was founded by diffusing information concerning the Empire, by organising lectures for all classes throughout the district, by distributing literature or by other means, by arranging public meetings whenever the Council desire to focus public attention on any matter, by watching the emigration movement in the district with a view to keeping the Emigration Committee of the Institute in touch with every development, by promoting Empire trade, and generally by such other means as the Council may direct.

Subject to the decision of the Council that the local conditions are such as to justify the enterprise, and to the Regulations for the time being in force, a Local Committee may found a Local Branch of the Institute, which should have as its headquarters a suitable Building designed to afford facilities similar to those of the Institute Building in London.

## REGULATIONS.

I.—*Local Committees.*

1. Upon receipt of a request in writing from ten local subscribers (Fellows or Associates) residing in a town or district the Council may, at their discretion, issue a Certificate establishing a Local Committee and defining its district. The Council may, by a subsequent Certificate, vary the district so defined.

2. The ten who have signed the request shall, on receipt of the Certificate, become the Provisional Committee, with power to add to their number, and shall appoint honorary officers. The Provisional Committee shall, as soon as may be convenient, summon a General Meeting of all Fellows and Associates resident within the district. The meeting shall proceed to the election of a Committee, which shall thereafter be recognised as the Local Committee, and the appointment of honorary officers, who shall be subject to the approval of the Council.

3. Once a year the Local Committee shall summon a General Meeting of the Fellows and Associates resident within the district for the election of a Committee and officers for the ensuing year.

4. Not later than February 1st in each year the Honorary Secretary of the Local Committee shall submit to the Council a tentative programme of work to be undertaken in the current year and an estimate of expenditure. A financial allowance may be made by the Council towards such expenditure, having regard to the nature of the work to be undertaken by the Local Committee and approved by the Council in each case. The allowance shall normally not exceed the sum of Five Shillings per head of Fellows and Associates resident within the district.

5. The Secretary of the Local Committee shall forward to the Secretary of the Institute, not later than February 1st, a report on the work of the Committee for the past year, together with an audited statement of income and expenditure.

6. The Council shall not be responsible for the defaults, financial or otherwise, of a Local Committee, or for any acts which are contrary to the aims or regulations of the Institute.

7. The Council may at its discretion, and on giving not less than six months' notice in writing, revoke the Certificate, which shall then be returned to the Secretary of the Institute, together with all monies standing to the credit of the Committee after all liabilities have been discharged.

II.—*Local Branches.*

1. The application of any Local Committee for authority to found a Local Branch shall set forth (a) the area proposed to be included, (b) the population within that area, (c) the number of Fellows and Associates resident within that area and the estimated probable increase, (d) the scheme for the acquisition and maintenance of Institute premises, including any special offers for this purpose by local residents or others, and (e) any other circumstances in support of the application. The Council, if they grant the application, will issue a Warrant of Incorporation as well as a Certificate defining the area. The area may subsequently be varied. The Warrant will define the financial relations between the Institute and the Branch.

2. A Local Branch may be organised with such officers, honorary or otherwise, as the Council may in each case approve. The Secretary of the Local Branch will generally undertake the duties of Honorary Corresponding Secretary of the Institute.

3. A Local Branch may make regulations for the conduct and support of the Branch, such regulations to be passed at a General Meeting and to be subject to the approval of the Council. The regulations may provide for the collection of an additional subscription towards the maintenance of the local Institute or its activities. But refusal to pay such additional subscription shall not impair the general status or privileges of an Associate or Fellow of the Institute, as defined in the Rules and Regulations of the Institute.

4. A Local Branch shall be deemed to include all Fellows and Associates resident within the area, excepting those (if any) who decline to pay the extra subscription (if any) on account of local privileges or activities.

5. Once a year a general meeting of the Local Branch shall be held for the purpose of electing a committee and officers for the ensuing year.

6. Not later than February 1st in each year the Secretary of the Branch shall submit to the Council a tentative programme of work to be performed in the current year and an estimate of expenditure. A financial allowance may be made by the Council towards such expenditure, having regard to the nature of the work to be undertaken by the Branch and approved by the Council in each case, and the amount of the subscription collected within the area.

7. The Secretary of the Local Branch shall collect the subscriptions of Fellows and Associates within the area, and shall remit the same to the Secretary in London except in so far as he may be otherwise authorised by the approved Regulations or by the Council. Should the Secretary in London receive direct any subscriptions from within the area he will at once notify the Local Secretary.

8. The Secretary of a Local Branch shall forward to the Secretary of the Institute, not later than February 1st, a report on the work of the Branch for the past year together with an audited statement of income and expenditure.

9. The Council will not be responsible for the defaults, financial or otherwise, of a Local Branch, or for any acts which are not consonant with the aims and regulations of the Institute.

10. The Council may, at its discretion, from time to time vary the regulations, and on giving not less than six months' notice in writing, revoke the Warrant of Incorporation, which shall then be returned to the Secretary of the Institute together with all monies standing to the credit of the Branch after all liabilities have been discharged.

#### **XV.—ILLUSTRATED EMPIRE LECTURES.**

DURING the year 1910 the Council started a movement for the purpose of inculcating the principles governing the Institute and spreading throughout the United Kingdom detailed knowledge as to the present resources and future development and consolidation of the Empire by means of illustrated lectures dealing with all parts of the Overseas Dominions. The diffusion of knowledge concerning the Empire is

one of the principal objects for which the Institute was originally founded, and has been steadily and regularly carried out at the sessional meetings held in London by the Papers which are then read and the discussions which take place thereon. But the opportunities for attending these meetings to those who live outside London and its immediate neighbourhood are naturally restricted, and it is for that reason that steps have been taken to further this particular branch of the Institute's work throughout the country.

To maintain a regular scheme of lectures on a large scale necessarily involves considerable expense, and the extent therefore to which it may be found possible to develop the movement must be largely dependent upon the amount of funds which are from time to time available for the purpose. With this object in view, a special fund, known as the "Empire Lectures Fund," has been established, and subscriptions thereto may be addressed to the Secretary of the Institute.

Mr. Herbert Garrison, F.R.G.S., Official Lecturer of the Institute, has devoted most of his life to studying the British Empire, travelling over it and lecturing upon it. He has lectured with marked success throughout the United Kingdom to large audiences of the general public as well as to leading societies, educational institutions, and colleges. The lectures have been actively supported by influential committees in the various centres, and the Council have received many letters of thanks and appreciation.

Members of the Council and several other Fellows of the Institute have assisted in promoting this important work, and it is hoped that others will follow their example by arranging for the delivery of lectures in their own particular districts.

Mr. Garrison's lectures comprise the following subjects :—

1. "Our World-Wide Empire."
2. "Outposts of the British Empire."
3. "The Dominion of Canada."
4. "The Commonwealth of Australia."
5. "The Union of South Africa; and Rhodesia."
6. "The Romance of India, and the Delhi Durbar."
7. "New Zealand—The Wonderland of the World."
8. "Ceylon—Eden of the Eastern Wave."
9. "The British Isles of the Far Pacific."
10. "Our Crown Colonies, Dependencies, and Protectorates."
11. "Newfoundland—Our oldest Colony."
12. "British Possessions in the Mediterranean."
13. "The Straits Settlements, the Malay States, and North Borneo."
14. "British West Indies."
15. "British Columbia."
16. "Round the World on the King's Highway—the All-Red Route."

All these lectures are illustrated by lantern slides from Mr. Garrison's own unique collection. Some of the subjects are also illustrated by kinematograph films. The Institute also possesses a collection of lantern slides illustrating the physical features, industries, and public buildings in various parts of the Empire, which are used to illustrate lectures delivered under its auspices.

## XVI.—EMPIRE TRADE AND INDUSTRY COMMITTEE.

BEN H. MORGAN, Esq., *Chairman*; Lieut.-Gen. Sir J. Bevan Edwards, K.C.B., K.C.M.G. (Chairman of Council of the Institute), Sir Godfrey Lagden, K.C.M.G. (Deputy Chairman of Council of the Institute), Richard Jebb, Esq., Sir Daniel Morris, K.C.M.G., Henry Birchenough, Esq., C.M.G., The Hon. Sir C. H. Rason, Hugo Hirst, Esq. (Chairman, Manufacturers' Association), Stanley Machin, Esq. (Ex-Chairman, London Chamber of Commerce), Edward Manville, Esq. (Chairman, Society of Motor Manufacturers and Traders), Colonel John Denny, Major Archer-Shee, D.S.O., M.P., Lord Merthyr, K.C.V.O., R. K. Morcom, Esq., G. McL. Brown, Esq., F. C. Salter, Esq., Ellis T. Powell, Esq., LL.B., B.Sc., W. M. Botsford, Esq., Hon. J. G. Jenkins, Joseph Rippon, Esq.

The objects of the committee are :—

(1) To facilitate, encourage and arrange industrial conferences or meetings to be attended by men of affairs from any or all parts of the Empire, in order to discuss questions of common interest with a view to regulating and co-ordinating the conditions of Empire trade and industry.

(2) To encourage and facilitate Empire trade and industry, e.g. by arranging for the reading of Papers and delivery of Addresses on financial, industrial, and trade subjects by authorities before the Institute itself and before Chambers of Commerce, trade bodies, and like institutions in the leading industrial centres.

The work of the committee has received the support and co-operation of the Governments of the various overseas possessions, who have undertaken to supply to the Institute their reports and other documents affecting Empire trade and industry.

The following subjects have already engaged the attention of the committee, and action in regard thereto has been taken in various directions, including formal resolutions which have been forwarded to the President of the Board of Trade and the Secretaries of State for Foreign Affairs and the Colonies, deputations to the Royal Empire Commission, representations to railway and shipping companies, public addresses, distribution of circulars, and in other ways.

*British Consular Service.*—As a result of the Committee's advocacy, the facilities of the British Consular Service have been extended to the people of Canada and Australia, and will shortly, it is expected, be made available to the people of South Africa, New Zealand, and other parts of the Empire. Hitherto the Service has represented the interests, and been at the disposal, primarily of the people of the United Kingdom, and it is confidently expected that this imperialisation of the Service will obviate the necessity for separate Consular representation and so promote joint working and harmonious external diplomatic and commercial relations.

*Imperial Development Board and Fund.*—The Committee has devoted special attention to the subject of bringing about the establishment of some machinery that will be successful in promoting inter-Empire schemes of common interest, particularly those affecting transportation and intercommunications, and has recommended to the Royal Commission on Empire Trade firstly by a memorial and afterwards through a deputation, the formation of an Imperial Development Board and Fund as the practical means of advancing the common interests of the various

parts of the Empire particularly interested. This scheme is now under the consideration of the Royal Commission and this Committee is still engaged, at the request of the Commission, in collecting information bearing on the proposal.

*Through Transportation by Sea and Land.*—The Committee has continued to emphasize the necessity of establishing a system of through bookings of goods by sea and land from any one part of the Empire to another. The desirability of bringing the producer into the closest touch with the consumer in overseas markets is an obvious advantage to British trade and, on the other hand, of placing the producer in the Dominions and Colonies in the closest business relations with traders in this country. This can only be done by improving transportation facilities and replacing the present cumbrous system of booking by a simple and direct one such as exists in Germany and the United States.

*Uniformity in Empire Statistics.*—The Committee has for some time urged the necessity of taking steps to bring about closer uniformity in the methods in use throughout the Empire of collecting, collating, publishing, and printing Imperial statistics so as to give them common values and to make the figures of one part comparable with another. As a result of a resolution, passed at the Imperial Conference in 1907 the Imperial Government made some suggestions to the Dominions with a view to closer uniformity and some of these have been adopted, but, on the whole, little real progress has been made in the matter. The Committee is of opinion that uniformity will be better and quicker realised if a common system were evolved, the main principles of which had been agreed to at a Conference of Statisticians of the Empire rather than by continuing to urge upon the Dominions the adoption of the statistical system used by the Home Government.

*British Trade with India.*—Special attention has also been devoted to increasing British export trade to the Indian Empire, and certain recommendations have been made to the Imperial Government with this end in view, and the attention of the Government has been drawn to special efforts that have recently been made by the United States to extend American trade in that market. Amongst other suggestions the Committee has urged the Imperial Government to appoint a Trade Commissioner in India for the purpose of keeping British manufacturers and traders informed from time to time as to the openings of trade, local conditions, and the extent and nature of foreign conditions prevailing.

*British Trade with the Crown Colonies.*—Somewhat similar reports have been made to the Imperial Government concerning the trade and resources of the Crown Colonies and Dependencies. The foreign proportion of both the import and export trade with these portions of the Empire has enormously increased of recent years and, in addition to urging the appointment of Trade Commissioners to groups of Colonies, the Committee have pressed the Government to issue periodical reports or handbooks detailing the resources and the openings for British capital and enterprise. Some little success has been met with in this connection, as the Commercial Department of the Board of Trade has recently issued a series of reports by their special trade correspondents in British West Africa, Straits Settlements, British Guiana, and Bermuda.

The dominant note of the Royal Colonial Institute's work is concisely described in its motto "United Empire." The Trade and Industry Committee exists to foster, stimulate, and assist British commercial and industrial interests, with special regard

to their Imperial aspect as elements and factors of Imperial union. It is, therefore, auxiliary to and not in conflict with other organisations working for the development of British trade interests.

### XVIII.—ANNUAL DINNER AND CONVERSAZIONE.

THE annual dinner is held, as a rule, on May 24 (Empire Day), and is presided over by either the President or one of the Vice-Presidents of the Institute. The Chairmen of the last few years include H.R.H. the Prince of Wales (afterwards H.M. King Edward VII), H.R.H. the Prince of Wales (now H.M. King George V); Field-Marshal H.R.H. the Duke of Connaught, H.R.H. the Duke of Cambridge, The Right Hon. Joseph Chamberlain, the Earl of Rosebery, the Duke of Argyll, Lord Northcote,

the Earl of Onslow, the Right Hon. Alfred Lyttelton, the Earl of Crewe, Lord Avebury, the Earl of Aberdeen, the Earl of Dunraven, the Earl of Jersey, Earl Grey, Lord Strathcona, and the Earl of Elgin. At these gatherings distinguished men of affairs gather together from all parts of the Empire, and the speeches delivered are valuable additions to the archives of the Institute. Dinners are also held simultaneously in various parts of the World and greetings exchanged. The latter gatherings are organised by the Honorary Corresponding Secretaries.

The annual Conversazione mostly takes place in the month of June, and for the past few years has been held in the Natural History Museum, which has been lent by the Trustees of the British Museum. The guests usually number between two and three thousand.

#### XIX.—STANDING EMIGRATION COMMITTEE.

His Grace the Duke of Marlborough, K.G., *Chairman*; William Baker, Esq., M.A., LL.B. (Dr. Barnardo's Homes); Ernest E. Carleton, Esq. (Central Emigration Board); Lieut.-General Sir J. Bevan Edwards, K.C.B., K.C.M.G. (Royal Colonial Institute); Douglas Eyre, Esq. (Children's Farm Homes Association); E. C. Gates, Esq. (Self-Help Emigration Society); Miss Mary K. Grimes (Church Emigration Society); The Hon. Mrs. Norman Grosvenor (Colonial Intelligence League); The Rev. R. L. Gwynne (Kent Colonising Association); Walter Hazell, Esq., J.P. (Central (Unemployed) Body for London); Gordon Inglis, Esq.; G. D. Jefferson, Esq. (Child Emigration Society); P. H. Kerr, Esq. (Settlers' Emigration Society); T. M. Kirkwood, Esq. (East End Emigration Fund); The Lady Knightley of Fawsley (British Women's Emigration Association); Sir Godfrey Lagden, K.C.M.G. (Royal Colonial Institute); Commissioner D. C. Lamb (Salvation Army); Colonel The Hon. H. Lawson, M.P. (Emigrants' Information Office); F. Morris, Esq. (Charity Organisation Society); Arthur A. Pearson, Esq., C.M.G. (Child Emigration Society); Guy W. Radford, Esq. (South African Colonisation Society); Colonel H. E. Rawson, C.B. (Royal Colonial Institute); The Hon. Lady Talbot (Victoria League); Miss C. M. Wadge (South African Colonisation Society); W. A. Evans, Esq., M.A. (Public Schools Emigration League), *Hon. Secretary of Standing Emigration Committee.*

The formation of this Committee was the result of a Conference organised by the Royal Colonial Institute and held at the Whitehall Rooms, London, on May 30 and 31, 1910. Delegates from forty-nine emigration societies in the United Kingdom attended the Conference, the discussions including such subjects as: (1) Diverting, as far as possible, the stream of emigration now directed to foreign countries, to our own Dominions; (2) Emigration generally, from the United Kingdom to the Dominions.

At a subsequent meeting, the representatives of these societies elected ten of their members to serve on the standing committee, and these, with a chairman and five members, were constituted a committee to deal with questions of emigration, and to which other members were afterwards added by the Council of the Institute.

Executive sub-committees were formed to deal with (1) women, (2) single men and families, (3) children, and their reports formed the subject of a letter by the Chairman to the Prime Minister, which was forwarded with the concurrence of the Council. The request was made therein that the subject of emigration should form one of those discussed by the Imperial Conference in 1911, and if this were found impracticable, that it might be referred to a subsidiary conference or to a committee of the Conference. Eventually, in 1912, the Prime Minister appointed the Dominions Royal Commission, and made the subject of migration within the Empire one of its terms of reference, and a deputation from the Standing Emigration Committee appeared before the Commission and gave evidence. It was urged by the deputation that there should be Government control of all emigration agencies and co-operation between the Mother-Country and the Dominions. The large number of orphan, deserted, and neglected children of both sexes, eligible for emigration, now under the control of the guardians, made it most desirable that some settled policy of emigration should be adopted by the Government in order to ensure a better future for the children.

A deputation of the Standing Emigration Committee had also been received by a committee of the Local Government Board, which was enquiring into the employment of children in various industries. The difficulties which the guardians met with in emigrating any of the children under their control, especially in the matter of expense, were put before them, and the Local Government Board was urged to explain the position of the guardians under the several acts, so that they might know what amount could be paid in and about emigration. In consequence, the Council of the Royal Colonial Institute received a letter from the Local Government Board with permission to make its contents public, and in which it was stated that there was no definite limit to the amount which might be expended in and about the emigration of Poor-Law children, but that nothing might be spent upon their maintenance overseas.

The following is a list of some of the subjects recently discussed by the Committee:—

- (a) The statutory limitations as to the expenditure per head on the emigration of children.
- (b) The emigration of ex-service men to Australia.
- (c) Emigration of children to Australia.
- (d) The action of Boards of Guardians as to the success attending the emigration of Poor Law children.
- (e) The charges on emigrants.

The Standing Emigration Committee is consultative and not executive. It aims at co-ordinating the work of all Emigration Societies and is prepared to act in an advisory capacity when matters are referred to it. It looks to some form of co-operation being secured between the Home Government and the Dominions, and it is in a position to approach the different departments of the former in all matters relating to emigration.

**ANNUAL REPORT.**

1. THE year which has just closed has been a memorable one in the history of the Royal Colonial Institute, and the Council are able to congratulate the Fellows on the fact that progress and expansion have been more marked than during any period of the forty-four years of its existence. Membership has substantially increased, and its work has been actively pursued in the continued endeavour to further the knowledge of Empire affairs and to promote closer Imperial unity.

The Council have great satisfaction in announcing that Field-Marshal His Royal Highness the Duke of Connaught has been graciously pleased to become Vice-Patron of the Institute, and that the Right Hon. Earl Grey, one of the Vice-Presidents, has accepted the office of President.

**FELLOWS AND ASSOCIATES.**

2. During the past year 297 Resident, 1,451 Non-Resident Fellows, and 103 Associates have been elected, making a total of 1,851, compared with 223 Resident, 555 Non-Resident Fellows, 54 Associates and 2 Honorary Fellows, or a total of 834 in 1911. On December 31, 1912, there were 1,872 Resident, 5,083 Non-Resident Fellows,

207 Associates, and 15 Honorary Fellows, or 7,177 in all, of whom 1,627 have compounded for the annual subscription and qualified as Life Fellows. The number of Lady Associates has increased from 18 in 1909 to 207 on December 31, 1912. The Council are of opinion that the inclusion of Associates will reinforce the Institute's work, and tend to widen its sphere of influence.

#### RHODES SCHOLARS.

3. Nineteen Rhodes Scholars have been made Honorary Fellows during their residence at Oxford in place of twenty-one who have retired after completing their studies at the University.

#### ACCOUNTS.

4. The annexed Statement of Receipts and Payments, duly certified by the Auditors, Messrs. Price, Waterhouse & Co., shows that the total receipts for the year amounted to £11,869 10s. 7d., of which £9,956 13s. 0d. consisted of Entrance Fees and Subscriptions of Fellows and Associates, showing an increase under this heading for the year of £2,322 17s. 0d.

The net ordinary Expenditure for the year, after deducting £74 17s. 11d. cost of new furniture and cost of improvements to building, and also £651 12s. 6d. receipts from Institute Dinners and Conversazione, was £9,981 17s. 8d., as compared with £8,507 8s. 9d. for 1911.

In order to re-establish the Reserve Fund which became exhausted when the building was altered and improved in 1911, a sum of £250 was set aside for the purpose early last year and it is proposed to add to the Reserve annually as a fixed policy such amount as the finances will bear.

#### DONATIONS TO THE INSTITUTE.

5. The Council have to acknowledge with thanks the gift of £100 to the funds of the Institute from Mr. Robert Christison, and of £5 5s. from Mr. Gavin F. Gardiner, of Adelaide, South Australia.

In accordance with the terms of Rule 43 which provides that the Council shall annually elect a Chairman of the Council who shall hold office for one year, and shall be eligible for re-election, Lieut.-General Sir J. Bevan Edwards, K.C.B., K.C.M.G., was unanimously elected to that office on the 19th March last. The Council much appreciate the services rendered to the Institute by the Chairman during the past three years and also those of Sir Godfrey Lagden, K.C.M.G., who has performed the duties of Deputy Chairman during the past two years.

#### OFFICE OF HONORARY TREASURER.

7. The Council have to report with much regret the resignation of the office of Honorary Treasurer by Sir Montagu F. Ommanney, G.C.M.G., K.C.B., I.S.O., who has occupied that position for the past twenty-three years and rendered valuable

service to the Institute. Sir Montagu Ommanney has been appointed a Vice-President, subject to the usual approval of the Fellows. On the invitation of the Council, Mr. Robert Littlejohn, who has been a Councillor for the past three years, and was one of the Honorary Auditors, kindly accepted the vacant position.

#### ENTERTAINMENTS.

11. The Annual Conversazione was held at the Natural History Museum, by permission of the Trustees of the British Museum, on June 28, and was attended by a large number of guests representing all parts of the British Empire.

The Annual Dinner was held at the Whitehall Rooms, Hôtel Métropole, on Friday, May 17, and was a brilliant and interesting function. A feature of the evening was the reading of telegrams of greeting from the Honorary Corresponding Secretaries in Sydney, Melbourne, Brisbane, Montreal, Toronto, Port Arthur (Ontario), Bulawayo, Johannesburg, Carnarvon (Cape Province), Pietermaritzburg, Colombo, Seychelles, Nassau (Bahamas), and Hamilton (Bermuda). In several of these cities Dinners were arranged to be held simultaneously with that of the Institute in London. It is hoped that on the occasion of the Annual Dinner in May next, the Fellows in all parts of the Empire, as well as those resident in foreign countries, will meet together and celebrate the event.

On the occasion of his visit to England, the Right Hon. R. L. Borden, Prime Minister of the Dominion of Canada, was the guest of the Council and Fellows at the first public banquet after his arrival in London. A large and representative gathering assembled to do honour to him, including Members of both Houses of Parliament, distinguished statesmen, and representatives of all parts of the Empire.

## THE LIBRARY.

13. The additions to the Library number 2,673 books, 1,431 pamphlets, 216 maps,  
and 404 photographs, making a total of 4,724 additions during the year. These figures  
do not include the large number of special parliamentary reports that are subsequently  
received in bound form, separate parts of monthly periodicals, or proceedings  
of societies. Of the additions during the past year 3,497 were presented by their  
authors, by publishers, by learned societies, and by the Dominion, Colonial, and Indian  
Governments. On December 31, 1912, the Library contained 89,368 volumes and  
pamphlets. The newspapers and magazines received at the Library, the majority  
of which are presented by their publishers, now number 701. During the year 81,366  
separate parts were filed, an increase of over 23,000 parts. The practice of subse-  
quently sending newspapers to the British Museum, where they are kept for permanent  
reference, has been continued. The cataloguing of the additions to the Library involved  
a large amount of work. A total of 14,000 cards have been written during  
the year, the number since the commencement of the card-catalogue in April 1910,  
being 44,000. These cards represent additions to the Library during that period.  
It is gratifying to find that the Council’s invitation to publicists and students to make  
use of the resources of the Library has been freely responded to. The great interest  
that is shown in foreign countries in problems of British Colonial administration is  
exemplified by the fact that authors and students from Germany, France, Italy, the  
United States, Belgium, Japan, Bohemia, Finland, Korea, and other countries made  
extensive use of the Library during the year. The special Law Library has also proved  
of great value to students of law and lawyers engaged upon Privy Council practice.  
During the year a complete set of Victorian Law Reports was presented by the Govern-  
ment of Victoria, and the Law Library now contains almost complete sets of many

of the most important Colonial Law Reports. Other important donations to the Library include the annals of the Royal Botanic Gardens, Calcutta—twenty finely illustrated volumes of much interest to botanists ; a set of the Proceedings of the American Antiquarian Society ; a set of the Johns Hopkins University Studies ; two valuable biographical dictionaries in 116 volumes presented by A. Moor-Radford, Esq. ; some early books descriptive of North America, purchased through a donation from an American student who had made use of the Library ; a set of the New Hampshire State Papers, covering the Colonial period ; and a large number of publications presented by the Indian Government. During the year the presentation to the Library of official publications by the Governments of the Overseas Dominions, Colonies, and India has been continued. The Council are grateful for the support of such Governments, and also are indebted to publishers who have sent books for review in UNITED EMPIRE, and to learned Societies, the authorities of Museums, Libraries, and similar institutions, who have sent their transactions, and a large number of private donors too numerous to mention.

#### BUREAU OF INFORMATION.

14. The Institute has become a recognised centre where recent and authentic intelligence regarding all parts of the Empire can readily be obtained. Inquiries on a variety of subjects have been received and answered.

#### VISIT OF THE SECRETARY TO CANADA.

15. Acting upon instructions from the Council the Secretary proceeded to Canada in the month of July, for the purpose of bringing before the people of the Dominion the aims and objects of the Institute ; the work it is carrying on in promoting Imperial unity, and the advantages it offers to those visiting the United Kingdom from the Dominions, Colonies, and India. The mission, which extended from the Atlantic to the Pacific, and included all the leading cities, was productive of a considerable addition to the Canadian Fellowship, while interest in the Institute and its work has been stimulated throughout the Dominion. The Council record with much satisfaction their appreciation of the manner in which Mr. Boosé performed this important duty.

#### TITLE OF THE INSTITUTE.

16. The Council have long felt, and their attention has constantly been called by Fellows to the fact, that however fitted the title "Royal Colonial Institute" was at the foundation in 1868, that title is no longer truly appropriate either to the self-governing Dominions or to India. Twelve months ago a communication was sent to Fellows inviting opinions and suggestions upon the subject. These are now under consideration and the Council will in due course take such action as may, after careful consideration, be approved and authorised.

#### MEDICAL SCIENCE AND THE TROPICS.

17. The Council have subscribed the sum of £50 to the Fund being raised by the Rt. Hon. Austen Chamberlain, M.P., for promoting the study of tropical medicine. The Council have also opened a Subscription List, in order that the Fellows and Associates of the Institute may have an opportunity of responding to

the appeal recently made on behalf of the School by Mr. Chamberlain on the occasion of the reading of a Paper before the Institute by Sir Ronald Ross on "Medical Science and the Tropics."

#### HALIFAX MEMORIAL TOWER.

18. On the occasion of the dedication of the Halifax (Nova Scotia) Memorial Tower by His Royal Highness the Duke of Connaught in August last, the Institute was represented by Dr. George R. Parkin, C.M.G., Mr. Ellis T. Powell, LL.B. B.Sc., and the Secretary.

The Memorial, consisting of a massive tower, stands within an extensive park fronting Halifax harbour, which has been given to the city by Sir Sandford Fleming. The Institute is presenting a pair of bronze lions, which are to be placed at the base of the tower to symbolise the vigilance and protection over the Empire which the Mother Country has exercised since she became a colonising Power. It is expected that the lions, which are now being cast, will reach Halifax in June next, and that they will be unveiled in the presence of many of the Fellows of the Institute resident in Canada.

#### PLUMAGE BILL.

19. The Council have shown their interest in the preservation of wild bird life throughout the British Empire by taking part in the effort now being made to obtain legislative action for the protection of native birds by the passing of an Act to prohibit the sale, hire or exchange of the plumage and skins of wild birds from British Colonies, and the following resolution was forwarded to the Prime Minister, the Secretary of State for the Colonies, and the Rt. Hon. A. Bonar Law :

"That in view of the expressed desire of the Dominions that an end should be put to the illegal and wasteful traffic in the feathers of their Wild Birds, which traffic threatens many valuable species with extermination, we appeal to the Government to grant facilities for placing the Plumage Bill (No. 2) on the Statute Book."

#### INTERNATIONAL CONGRESS OF ENTOMOLOGY.

20. The Institute was officially represented by Sir Daniel Morris, K.C.M.G., a member of the Council, on the occasion of the International Congress of Entomology which was held at Oxford. The Congress was attended by leading entomologists from all parts of the world, and papers were read and discussed dealing with the insect pests of cultivated plants and other subjects regarding the methods of combating insects destructive to agriculture and forests.

#### EMPIRE LECTURES.

21. The Empire Lectures Committee have continued the work which was inaugurated two years ago of bringing to the notice of the people of the Mother Country the importance of the various Overseas Dominions, Colonies and India by means of illustrated lectures. Mr. W. H. Garrison, F.R.G.S., the Official Lecturer of the Institute, has given addresses with remarkable ability and success in various parts of the United Kingdom to large audiences of the general public, as well as to public schools, societies, and various educational institutions. Several Fellows of the Institute have assisted in

promoting this important work, and it is hoped that others will follow their example by arranging for the delivery of lectures in their own particular centres. In the absence of contributions for carrying on this movement, the Council has again voted a special sum towards the continuance of the lectures during the present year. The Council trust, however, that independent support may be received from the Fellows and others so that this educational work may be extended and made more comprehensive.

With a view to educating more especially the rising generation as to the importance of their own Empire, the Council organised a series of Christmas Lectures for Young People, when Mr. Garrison gave vivid lantern talks on "Our World-Wide Empire" and "New Zealand, the Wonderland of the World," and Mr. James Buckland dealt with "The Birds of the British Empire" in a lecture illustrated by a large number of lantern slides. These lectures were so successful that the Council propose to repeat the experiment next year.

#### LANTERN SLIDES.

22. The Council are indebted to the Governments of the Dominions, Colonies, and India for gifts of Lantern Slides illustrating the scenery, resources, and public buildings in various parts of the Empire. These will prove of service in illustrating the lectures delivered before the Institute itself, as well as for lending purposes in connection with the work being undertaken by the Lectures Committee.

#### "UNITED EMPIRE" (THE R.C.I. JOURNAL).

23. The Journal, *UNITED EMPIRE*, which has been issued since January 1, 1910, continues, under the editorship of Mr. Archibald R. Colquhoun, to maintain its high reputation as a review of the whole field of Imperial activities. Apart from other changes made from time to time, on January 1, 1913, what is believed to be a great improvement was effected by the use of thicker paper, the adoption of clearer type, and the printing of illustrations on half-tone art paper. The contents comprise the Papers read at the meetings of the Institute; articles by recognised authorities on Imperial questions; Editorial Notes and Comments; Round the Empire Notes (supplementary to the Editorial Notes); Reviews and Book Notices; Empire Trade and Industry. Great importance is attached to the Editorial Notes, which aim at giving, in brief, a monthly empire survey, and at the request of many Fellows it is hoped to develop this feature. The Journal is sent to every Fellow and Associate of the Institute, as well as to many of the leading societies, institutions, and clubs throughout the Empire. The yearly volume averages about a thousand pages, and an index is supplied to all Fellows who apply for it, as well as to some six hundred societies and institutions.

The Council have conveyed to Mr. Colquhoun their appreciation of the services rendered by him in reconstructing and editing the Journal and bringing it to its present level of excellence. The thanks of the Council are due to those who have given their assistance by gratuitous contributions, many of these by men whose names are distinguished throughout the Empire.

#### THE WORK OF THE TRADE AND INDUSTRY COMMITTEE.

24. The Empire Trade and Industry Committee, which is one of the permanent working Committees of the Institute, has done some useful work during the past

year. It is impossible to give here a complete résumé, but a few matters of general interest to which attention has been devoted may be mentioned.

The Committee has taken the initial steps towards the establishment of a Chair of Empire Trade at the London School of Economics, which is a branch of the London University. It is surprising that the Empire should have proceeded so far along the path of development without having a Chair of Empire Trade in its capital city. A substantial sum has been promised towards the maintenance of the Chair, but further funds are required, and the Secretary will be glad to hear from any of the Fellows, who may be disposed to subscribe to such an excellent proposal.

Interest has been revived in the question of a State-owned Atlantic cable, in connection with which the cordial support of the Commonwealth and New Zealand Governments has been granted. The Dominion Government, with whom a member of the Committee had a conference in Ottawa has also expressed itself as favourably disposed towards the proposal. A practical step that the Committee has aimed at bringing about is the formation of a subsidiary Imperial Conference to deal with the subject. The Commonwealth Government strongly approved of this step in a letter to the Chairman of the Committee, and this communication has been discussed in the House of Commons on several occasions.

The Committee has strongly realised that in all Imperial trade and industrial reforms, which were recommended by the Imperial Conference, by individual Governments, or by this Committee itself, there is lacking a central department or organisation to promote and arrange the business details and so bring matters to fruition, and with a view to supplying this need the matter was brought to the notice of the Dominions Royal Commission at their first sitting. A memorial on the subject was prepared by the Committee, in which the establishment of an Imperial Fund and Board was recommended, and subsequently two members of the Committee gave evidence on the subject before the Royal Commission, with what practical result will not be known until the Commission issues its first report.

Reference was made in last year's report to the efforts made by this Committee to have the British Consular Service made available to the Overseas Dominions equally with Great Britain, and during the past year its work in this connection has met with success. The people of Canada and Australia can now make use of the British Consular service almost equally with the people of Great Britain, and it is hoped to obtain similar advantages for the people of the other Dominions. This is an important step in the movement towards a United Empire, as it places Imperial officers in foreign countries at the common service of the daughter States.

At the request of the Dean of Faculty of Engineering at the University of Hong Kong the Committee has co-operated in procuring from British firms and others interested in Imperial education in the Far East, equipment of machinery and instruments for the engineering laboratories.

#### CITY LUNCHEONS.

25. In connection with the work of the Empire Trade and Industry Committee, luncheons have been held in the City of London, and have been numerously attended. The first took place in the Hall of the Fishmongers Company (by the kind permission of the Master and Wardens) when the Hon. George E. Foster, Minister of Trade and Commerce of Canada, gave an address on "Canada and the Empire," and the second was held at De Keyser's Hotel, when the Hon. A. L. Sifton, Premier of Alberta, spoke upon the "General Development of the Western Provinces of Canada."

**EMIGRATION.**

26. The work of the Standing Committee on Emigration during the past year has chiefly been directed towards bringing about, and, by means of the Press, focussing the attention of the public upon the necessity for closer co-operation between the Home Government and the Overseas Dominions in the matter of emigration. Prior to the meeting of the Imperial Conference of 1911, the Council addressed the Prime Minister on this subject, and urged that the Conference should give the fullest consideration to the problem of Migration within the Empire. The reports of three expert Sub-Committees on the subject of Emigration of Single Men and Families, of Single Women, and of Children were forwarded and the request was made that an opportunity might be afforded of amplifying the views expressed in them to a subsidiary Conference, or to any Committee of the Conference which might be appointed to consider the problem of Emigration.

The Dominions Royal Commission, which is now sitting, was the outcome of the Imperial Conference, and it is gratifying to the Council that the subject of Migration within the Empire forms one of the points of reference, and that a deputation from the Standing Committee has been afforded the opportunity of tendering evidence before the Commission and of amplifying the views which the Committee holds.

The Committee has given special attention during the year to the difficulties which confront Boards of Guardians in emigrating orphan, deserted, and adopted State children who are under their care and control. The existing regulations do not meet the altered conditions which Imperial citizenship has brought about, and in some particulars they are reminiscent of the days of compulsory emigration. An opportunity which presented itself was consequently taken advantage of to bring the matter before a Special Committee of the Local Government Board which was receiving evidence upon departmental affairs, and a deputation from the Standing Committee of this Institute was enabled to present the whole of the arguments for (1) co-operation between the Home and Dominion Governments with a view to formulating a scheme for assuring the future of such children ; (2) the appointment of a Government Department for dealing with emigration generally, and for controlling all emigration agencies ; (3) the enlargement of the power of Guardians, and the removal of existing difficulties with a view to benefiting the children under their control, the ratepayer, and the Empire at large.

The Standing Committee attaches much importance to the organised emigration of Poor-Law children. They number several thousands a year, and their inevitable future in the absence of an encouraging environment is to drift into unemployment. There is ample evidence to show that the same children make excellent settlers when they go to the Overseas Dominions and grow up amid new surroundings. Canada is at present the only Dominion which has an organised system for receiving child immigrants, and the Standing Committee has endeavoured to enlist the sympathy of the Australian States and New Zealand, and to obtain an extension of the policy to those Dominions also. Western Australia has granted land to the Child Emigration Society to establish a farm school, and has in other ways shown a disposition to give practical assistance in the matter of child emigration. Details of a scheme of co-operation between them and the Home Government have been drawn up by the Standing Committee and forwarded to the High Commissioners and Agents-General with the request that they would forward the same to their respective Governments.

The Council regard the work of the Emigration Committee during the past year with much gratification, and feel sure that the Fellows will support them in their efforts to secure the initiation of an organised Imperial policy dealing with Migration within the Empire.

#### HOURS OF OPENING.

27. In the last Annual Report it was stated that the Institute would remain open until 10 P.M., instead of 8 P.M., daily, except on Sundays and Bank Holidays. After a somewhat extended trial the results attending this alteration did not show that there was any demand amongst the general body of the Fellows for such an extension of the hours, and the Council therefore did not feel justified in continuing to incur the additional expense. The Institute is therefore now closed at 8 P.M.

#### MEETINGS OF SOCIETIES.

28. The Institute has afforded facilities for the meetings in the Institute building of the Australian Section and of the Canadian Chamber of Commerce in London.

#### YEAR Book.

29. The Year Book of the Institute, which was issued for the first time last year, met with a cordial reception from the Fellows, as well as from the Press, in all parts of the Empire. It contains in a handy form full information regarding the objects of the Institute and the development of its work. The issue for 1913 will be forwarded to the Fellows at an early date.

#### HONORARY FELLOWSHIP.

30. Honorary Fellowship of the Institute was extended to the Overseas Delegates of the Congress of Universities of the Empire; the Delegates to the British Imperial Council of Commerce; the Australian and South African Cricket Teams, and the members of the South African Football Team during their stay in the United Kingdom.

#### FREEMASONRY.

31. The Consecration of the Royal Colonial Institute Lodge took place on January 10, at Freemasons' Hall, the ceremony being performed by the Right Hon. Lord Amt-hill, G.C.S.I., G.C.I.E., in the presence of some two hundred members and guests. Field-Marshal H.R.H. the Duke of Connaught, K.G., G.C.M.G., is the first master of the Lodge, and he appointed as his deputy the Hon. Sir John A. Cockburn, M.D., K.C.M.G. His Royal Highness has appointed Colonel the Hon. Sir Newton J. Moore, K.C.M.G., Agent-General of West Australia, to act as Deputy Master for the ensuing year. Since the Consecration of the Lodge 28 Fellows have been admitted, making a total membership to the end of the year of 87.

The Meetings of the Lodge are held at Freemasons' Hall on the second Wednesday in the months of January (Installation), March, June, August, and October.

#### TYPEWRITING DEPARTMENT.

32. For the convenience of the Fellows a Typewriting Department has been provided in the Institute Building on payment of the usual fees.

#### HONORARY CORRESPONDING SECRETARIES.

33. The special thanks of the Council are tendered to the Honorary Corresponding Secretaries for the assistance they have gratuitously rendered in spreading a better knowledge of the aims and objects of the Institute in their respective centres. The co-operation of these gentlemen in the work of the Institute is much valued by the Council, who are kept, through them, in close touch with current events in all parts of the Empire. During the past year the number of Honorary Corresponding Secretaries has been greatly increased, with the result that better representation has been secured not only in the British Empire but amongst British communities in foreign countries.

34. In concluding this report the Council desire to express their thanks to those Fellows who, in response to previous appeals, have done so much to increase the membership and further the objects aimed at, and trust that the great cause of Imperial unity which the activities of the Institute are designed to promote will continue to claim their best efforts during the present year.

Sir GODFREY LAGDEN, K.C.M.G. (Deputy Chairman) : Late last week I learnt from the Chairman of Council, Sir Bevan Edwards, that he would be present to-day to make the customary statement and deliver his address in moving the adoption of the Report and Accounts. But I am informed at very short notice that it is impossible for him to attend. It is a matter of deep regret to us all that his illness prevents it, and it is our earnest hope that his health will soon be restored. This sudden change has left me no time to prepare any considered address, and I shall, therefore, only attempt to touch briefly on some of the principal points which seem to demand attention. I will refer first to the Statement of Receipts and Expenditure.

Our revenue has increased satisfactorily and that is due to the welcome increase of the number of Fellows. Our expenditure is also larger, as might be expected, because our activities have been wider, and as our numbers increase there are bound to be greater demands upon us for staff, cost of printing, postages, and nearly every other head of service. It will be seen that the Reserve Fund of £3,000 on bank deposit appearing in the Accounts for 1911 has disappeared. It was appropriated to pay for the reconstruction of the building and purchase of new furniture and fittings.

However, we resolved early last year, as a policy, to re-establish the Reserve Fund, and started with a modest £250. At the end of the year we had a respectable balance in hand and were enabled to set aside the substantial sum of £1,000, thus bringing the total reserve to £1,250. The basis of allocation was to reserve approximately one-half of the compounded subscriptions. This is a sound principle, which we hope future finance may always admit of our following.

The Annual Report deals so fully with the work of the past year that there is no occasion for me to do more than draw attention to one or two particular features. Sir Bevan Edwards in his address last year stated that H.R.H. The Duke of Connaught had graciously accepted office as Vice-Patron of the Institute, and indicated the desire of the Council to elect as his successor in the Presidentship a working President. By the happiest of chances Lord Grey had returned to England, after completion of his distinguished career in Canada, and consented to take the office. In so doing he not only honoured our Institution, but immediately lent himself warmly to our work. With his characteristic enthusiasm he entered whole-heartedly into the Institute life, and both by suggestion and keen interest has stimulated and helped our activities. Gentlemen, I assert with confidence, and you will, I am sure, all endorse heartily, that by Lord Grey's close association with us we are strengthened and encouraged.

One of the most important movements has been to adopt the course adumbrated by Sir Bevan Edwards for the past two years in respect to the admission of a new order of Men Associates, to regulate and confirm which an Extraordinary Meeting of Fellows was lately called. This idea was suggested by Lord Grey over ten years ago at an annual dinner, and he is now presiding at the first meeting after it comes into operation. Probably every reform in public life offers some disadvantages as well as advantages. But there is no reason to anticipate by the new order of Associates any curtailment of the privileges of full Fellows, and then there is the great object in view of enlisting the sympathy and support of a great body of Imperial-minded men.

Just prior to the printing of the Report the Council were completing arrangements for essay competitions on an extensive scale. One series relating to Public schools and universities with the object of creating there an atmosphere of Imperial thought : another series of a high standard designed to draw contributions from

the most competent of British people in all parts of the world upon the great subject of Imperial Unity in all its aspects.

The experiment of sending our Secretary to Canada last autumn proved so satisfactory that we have now arranged for him to proceed on a similar mission to South Africa this coming autumn, and we hope to organise a similar expedition to Australasia if and when suitable ambassadors can be found. That, of course, will always be a difficult matter, because going there takes a long time, and Mr. Boosé is so useful and so necessary to us that I almost doubt if we could spare him; nevertheless we do hope to get people willing to go.

The Institute feels under a deep obligation to Sir Montagu Ommanney for his twenty-three years' valuable services as Honorary Treasurer. Our best thanks are due to him, and to Mr. Littlejohn for accepting the vacant office.

Our thanks are also due to the whole Staff of the Institute, whose conduct has given every satisfaction.

It is a matter of deep satisfaction that our membership has increased from 5,608 in 1911 to 7,177 in 1912. For this we are indebted to several causes. Firstly, to the real live interest of Lord Grey and his personal influence. Secondly, to the visit of our Secretary, Mr. Boosé, to Canada, which had such excellent results. Thirdly, to the individual efforts of the Council and Fellows to gain adherents; and, lastly, to the undoubted fact that the Institute is in a vigorous condition and claims attention.

I do not mean to imply that we should feel content with our present condition, for probably we are only on the threshold of the great work which the Institute is destined to perform. The Council in presenting the Report and Accounts, which I now ask you to adopt, believe that they offer the evidence of encouraging progress in carrying out the purpose for which the Institute was called into existence.

Colonel Hon. JAMES ALLEN (Minister of Defence, New Zealand), in seconding the adoption of the Report, said: Coming as I do from the other side of the world, I look upon the work of the Institute with perhaps a keener appreciation than do many of those who live in England. We are separated from the great body of intellectual thought which is gathered here from time to time—separated in a sense and yet we do come into touch every now and then through the medium of the Journal and of speeches and papers written by those who take an interest in the Institute. First of all may I say that I entirely agree with the mover in respect to Earl Grey. I am sure his personal influence is having a very great effect on the work of the Institute; his undoubted energy not only keeps him going but keeps everybody going who comes in contact with him. If he could convert every member into a real live worker, such as he is himself, what could not 7,000 earnest men do for the solution of the Empire problem? I have been at one or two meetings; I am sorry I have not been able to attend more, but I recall one important paper in particular and a very illuminating debate which took place upon it. My friend Mr. Jebb was one of the speakers. He represents ideas with respect to Empire consolidation which, perhaps, some of us do not agree with, but, after all, the Institute is here to thresh out these problems and we are glad to hear every side of this difficult question. It is only by every man giving us of his best that we shall come to a final and, I hope, presently a sound conclusion on the subject. I would allude to another remark by the mover, that is with regard to the visit of some official member of the Institute to the out-lying portions of the Dominions. Mr. Boosé's visit to Canada has already been mentioned. May I suggest that there is quite as much value to be derived from an

official visit to South Africa or Australia as from a visit to Canada, perhaps more. Canada is more closely in touch with you, nearer to you. There is growing, in all these outlying Dominions, a sentiment and a local patriotism which, I believe, we have to use and use in the right direction, and then we may contemplate with serenity the question of Empire consolidation. If that sentiment and that local patriotism are not used as they ought to be, I should have doubts with regard to the future of the Empire. My own firm conviction is that, rightly used, this local sentiment and patriotism will lead to the consolidation of one of the greatest Empires the world has ever seen. I venture to suggest, therefore, that it would be a wise thing if Mr. Boosé or some other official member of the Institute could pay a visit to Australia as well as to South Africa. We live under different conditions in those far away parts of the Empire—different even from the conditions which apply at the present moment, at any rate, to Canada. We are going through certain stages of development. Australia has gone even further than Canada to-day in certain directions. In New Zealand we have made one important step towards Empire consolidation. I do not think anything would satisfy our people until we have adopted a permanent policy, some kind of permanent policy which, utilising local sentiment and patriotism, will make eventually to Empire consolidation. I do not think the problem is really a very difficult one; to me it presents a fascinating study, and I am sure it does to every real and live member of the Institute. With regard to the position of New Zealand, a visit from any of you would undoubtedly do us a great deal of good and I do think it a pity that more members of the Institute cannot find time to come to us and realise on the spot the conditions under which we live and the kind of ideals growing up in these younger communities. With regard to the Journal of this Institute, I think it would be a very good thing if the Editor also could pay a visit to some of these outlying Dominions. I am certain that the Journal would come to be a more living and more real thing to you and to us if the Editor were more closely in touch with us. So, if you can spare him, or somebody who advises him, I think the expense would be very well laid out. The Journal circulates in New Zealand, but I do not think it has the influence in New Zealand or Australia it ought to have. Why, I cannot say; it is an excellent Journal—a Journal of much value to everybody, and yet I do think it might be made a more valuable instrument for the furtherance of your work. I think the Journal (the Journal of a rich Institute) ought to be a most powerful instrument in furthering the work before you. A careful study of what the Journal is doing and ought to do is well worth the consideration of those who guide the Institute. I do not think it holds the place amongst us in New Zealand and Australia that it ought to hold. I do not want to refer particularly to any other journal—still there is one journal published to-day which is having greater effect, at least on the thoughts of men who are Empire students, than even your Journal has. That ought not to be; yours ought to hold the premier place. I do not say it does not do so to-day, but it is being run very hard indeed by other journals, and there ought to be no question of competition, for your Journal ought to be *facile princeps*. I believe that in New Zealand and Australia the Institute is growing in popularity. The members are gradually increasing. There are more applications for membership from New Zealand than I have known in previous years. I daresay the corresponding secretaries might conceivably be more vigorous in their efforts, but you know they are men who lead busy lives and have much other work to do. We do our best, but our best is perhaps not all that is to be desired, and a visit from one of your officials would, as I have said, undoubtedly stir us to more vigorous

efforts. Lord Grey, for instance, did work in Canada that we value very highly. If he could come out to New Zealand or Australia I cannot help thinking that the greatest good would result. So I invite him most heartily to come and see us or, if not him, some other official representative of the Institute. I wish the Institute most complete success. Some day probably we shall realise more than we do even to-day the value of those who preceded us. For instance the work of Sir Frederick Young and others has been of inestimable value. May their work go on and may those who come afterwards be also earnest students of Empire questions. We shall look to this Institute more than to any other organisation for the final solution of the great problem before us.

The CHAIRMAN: I should like to ask every Fellow to back up the earnest and patriotic appeal to which we have just listened. I will now ask you to give a hearing to Sir Frederick Young. He is 96 years old next June; he has been working for us ever since the Institute was born, and he has the satisfaction of feeling in his older days that many of the problems for which he has worked are nearing solution.

Sir FREDERICK YOUNG, K.C.M.G.: I confess I was anxious to say one or two words about the Report, a report which I feel supremely delighted we have been able to put before you. For all the years that the Institute has existed we have never had a report which has struck me as being so full of the record of happy, successful efforts as the present one. Of course there is no doubt that I personally had a good deal to do with the development of the Institute, and that for many years I took a very active and energetic part in aiding its development. I cannot help remembering that in the early days of the Institute we had some difficult questions to solve with regard to it. I remember the late Duke of Manchester, on one occasion, said that he was afraid we were going to be a dilettante society. "No, your Grace," I replied; "the Institute is going to be a big thing because it is an agent for doing national good," and that is one of the reasons that stimulated me for years to do what I could on my part to make the Institute a success. I feel that we are in the most happy circumstances at present. We could not have a more admirable President than our friend Lord Grey, who since his return from Canada has thrown himself into this business in a most wonderful way. Allusion has been made to our Secretary, Mr. Boosé. To-day he completes forty years' service with the Institute. I was present when he, quite a young fellow, entered our service. This is a very interesting anniversary, and I would repeat that in the case of Mr. Boosé we have a most excellent and admirable secretary. I felt I could not go away without saying these few words of congratulation and high approval of the work of the Institute.

Captain CHARLES SLACK regarded the Report as the most favourable in the history of the Institute. At the end of the year they would know better how the Institute was going to be affected by the admission of the new class of Associates. With regard to the Journal, he had always thought that it was one of the most important factors connected with the Institute. It should, he thought, be doubled in size, with plenty of illustrations and maps, and he urged that the Institute should hammer at the Postmaster-General so as to get the cheap postal rates to Canada extended to the rest of the Empire.

Colonel H. E. RAWSON, C.B., agreed that the Report was a magnificent record of useful activities. He spoke in approval of the institution of the Empire lectures, which kept us in touch with our kith and kin beyond the seas, and he was quite sure that they also would be glad to see how much their work was appreciated. He noted with gratification the reference in the Report to the subject of emigration, and in

passing he wished to say that they owed a debt of gratitude to those who, some two or three years ago, were responsible for calling the Conference on the subject. There were many of them, he said, who felt that emigration within the Empire required control, direction, and assistance, and the work of the Committee, he thought, promised well for the future.

Mr. P. WOOD cordially concurred in Colonel Allen's suggestion as to the importance of some official representative of the Institute visiting the various Dominions. Provided they could get the right man to go, nothing but good could come of it. It would tend, among other things, to a better feeling between the Mother Country and the Colonies. We wanted to know one another better. That was to be brought about by friends from other parts of the world coming to see us, and by our going to see them. He was exceedingly glad the Council were beginning to accumulate a Reserve Fund. He wished the excellent library connected with the Institute was used even more than it is. It was a great pleasure to go there and get the information that one wanted, and the officials, he said, were exceedingly helpful in finding any reference required.

Dr. A. N. LEDINGHAM was of opinion that our legislators at home ought to be better acquainted with the Empire, and he suggested the formation of an Anglo-Imperial Council on the model of the Indian Council in matters relating to the Colonies.

Mr. D. HOPE JOHNSTON shared with the Chairman the hope that the Institute would in time reach a membership of 100,000; but, speaking as one who knew Sydney pretty intimately, he assured the meeting that the Institute was comparatively unknown there at present. There were thousands of Imperialists in Sydney. If the Chairman or Mr. Boosé were to pay them a visit he thought the result would be a large increase in members. He suggested that in every capital city a large body of correspondents should be appointed. If they had a large number of such representatives the annual dinners at Sydney, Melbourne, and Wellington would be very big affairs indeed and would result in a large addition to the membership. With regard to Sir Frederick Young, he had a very lively feeling of regard for him. He had always found him kind and considerate to those who came to the Institute practically as strangers. He was the first to take them by the hand and make them feel at home.

Mr. ALFRED MOOR-RADFORD was unfeignedly glad to see the Institute branching out in all directions and doing such a great deal of good. With regard to emigration, he hoped those directing that matter would confine themselves only to one side of the subject, and that was child emigration, for in a general way nothing could be done with emigrants as a whole except under the ægis of governments. He agreed that the Journal could be improved. It should be made of some practical use to those in the Dominions, and an epitome of current events for the months would be useful.

Mr. J. SAXON MILLS was of opinion, speaking with a pretty wide experience of London institutions, that the Institute was the most efficiently managed and admirable of any of them. He referred particularly to the Library and paid a tribute to the excellent services rendered by the Librarian. As one who unfortunately had to make his living by his pen, he could not possibly dispense with the Library of the Institute. Something had been said about emigration. As usual, it was all about the emigration of the working classes. The unfortunate middle classes of this country, who were between the devil and the deep sea, ground beneath the heel of the capitalist on the one hand and taxed to death for the support of the working classes on the other, had very little done for them. They had 7,000 members of the Institute,

and Lord Grey aimed at having 100,000. It was quite clear that a good many of them, both in England and in other parts of the Empire, must at times want to change their place of residence. There must be amongst those who lived in this country a good many who would be glad to go to the colonies in some capacity if they knew where there was an opening. The difficulty for a man in this country who wanted to take his energies and abilities elsewhere was to know where he was to put them—to know where he was going to find a place. He did not say there were many in that position, but there were sure to be more as time went on, and he suggested it might be a good thing if they had something like a bureau of employment, and could point out openings in the Empire where abilities would find a new scope. It was possible the Journal might be of some use in that way, but he had no definite scheme. He wished to add his tribute concerning the excellent work which had been done during the past year.

Mr. COLEMAN B. HYMAN urged that the Institute should take a more active part in the celebration of Empire Day, and also that the Institute should take up the celebration of the Centenary of Waterloo.

Commissioner LAMB (Salvation Army) was glad to know that the Institute was pulsating with life. Several problems had been discussed. The problem of United Empire, he thought, was one which would tax the wisdom of the elder statesmen of the Institute. Alluding to the subject of emigration, he said the standing Joint Committee would want all the encouragement and help that could be given in the next year or two.

The CHAIRMAN : First of all I wish to associate myself with what has been said by Sir Godfrey Lagden and others regarding the unfortunate absence of Sir Bevan Edwards. He has just completed his fourth year as Chairman of the Council, and I may say a great part of the praise which you have improperly bestowed on me is really due to him. When he came into office there were a little over 4,500 Fellows. Now there are 7,500, a big increase in four years. You owe much to the disinterested energy with which he has devoted himself to promoting your interests, as well as to the indefatigable exertions of the Secretary and of Sir Godfrey Lagden and other members of the Council. It has been pointed out that there is a very significant disproportion between the number of Fellows of the Institute residing in the United Kingdom and those Overseas. At the end of 1912 we had about 2,000 in the United Kingdom and about 5,000 Overseas. I do not think that is quite right, and one of our hopes and ambitions is that we may be able to equalise matters a little more correctly. In Canada three years ago we had 129 Fellows. Now we have 1,029, and I look forward to a greater increase in the near future. I would point out that in South Africa to-day, notwithstanding that they have a white population of only about 1,250,000, you have got a larger number of Fellows than you have in Canada. In the South African Union the number is 1,068. In addition, West Africa, with its small white population, contributes 417 Fellows, and East Africa, Uganda, and Nyassaland contribute 158, and Rhodesia 307, proving that there is a fine spirit in our South African Protectorates and Dependencies which we should like to see better illustrated at home. In Northern Rhodesia, where you have a white population of some 1,500, you have over 100 subscribing members, or one in fifteen of the population, a fact which I think reflects high credit on the spirit of the people out there. In order to get 100,000 members, which, as you have been told, is the aim we have put before the Institute, I agree that we shall have to establish vigorous branches with enthusiastic corresponding secretaries, like Colonel Allen, in every big town of the Empire.

Last year, for the first time, the Council published a Year Book. Next year this book, I think, will be found to be an even more helpful and stimulating document. I, for one, shall not be satisfied until I see a year book analysing the Fellows and Associates and enumerating the numbers who come from the various counties of England, Scotland, Ireland and Wales, and the various Dominions across the seas. The Secretary has handed me a letter which has just been received from the Sheriff of Bristol, Mr. T. J. Lennard. I will read a few extracts from the letter, which I think show, as Commissioner Lamb said, that the Institute is pulsating with life.

"I have given part of this site (2 Whiteladies Road, next to Victoria Rooms) for public improvement, and the house will be demolished immediately. It will be the most prominent site in Bristol for Imperial purposes when the King Edward Memorial is completed.

"I shall be pleased to give the freehold for the purpose of erecting a building for the 'United Empire League' (or whatever name is finally adopted by the R.C.I.) if, within two years from this date, you are able to form a local society bearing the above name, embracing all the local members of kindred societies with similar aims, having at least 500 members in Bristol and neighbourhood, paying a minimum subscription of £1 1s. per annum, which would include associate's privileges of the R.C.I. and receipt of the splendid monthly magazine, UNITED EMPIRE.

"The particular form the society shall take, and its activities, the members themselves will decide. If you get the minimum 500 members it will not be difficult to get your money for the building to be erected thereon by the issue of debentures bearing interest. I simply reserve the right to approve the plans of a suitable building to be erected, and will keep the site empty for two years from this date in the hope that my offer and challenge will be accepted and completed within that time.

The offer is made in support of Earl Grey's forward policy of '100,000 members for the Royal Colonial Institute,' and because I believe the needs and the responsibilities of this great Empire should be brought before representative men of the ancient city of Bristol, which is the metropolis of the west of England. If they can be knit together without distinction of polities or religion it will be a great gain to the Empire."

We want that sort of spirit to spread to every town and county of the United Kingdom, and we want to develop the means of enabling men of British citizenship to join some branch of the Institute in every city of the world. Guatemala is a small place in the South American Continent. Some three years ago you had not a single member of the Institute there. To-day you have seventy, and this is the sort of letter which has just been received from a member there:—

"I have called a meeting of all our Fellows for the election of a committee and chairman. Everyone is responding with enthusiasm. I will report to you the result of the meeting.

"In the meantime arrangements for the dinner are going rapidly forward. We are planning for 60 covers—including guests such as the Foreign Minister and First Secretary of the Government here, the British, American and French Ministers, and other members of the British Colony who have not joined, and people of importance or distinguished visitors here at the time. We are planning 'sumptuous' decorations, including flag, hoists of signals such as 'God Save the King'—'England expects,' various forms of the National flag through past centuries. A souvenir memo. with account of the Institute, special programme of English music, string band inside, military band outside, English songs (solos), English choruses by a trained choir and *Roast Beef* and all other English dishes.

"I am organising a group of Fellows to meet regularly for the study of the Empire. For history, geography and all Imperial questions. I believe much can be done here to keep the flag flying although we are small in numbers."

A speaker from Sydney suggested we should do something by way of celebrating Empire Day. That is already the settled policy of the Institute. Last year it was our endeavour to organise a celebration of Empire Day by a banquet to be given by members of the Institute in every big town of the Overseas Dominions of the Crown, not only in the Empire, but as far as possible outside the Empire also, and, under the influence of the suggestion and push of the Institute, I am in hopes that before many years have passed every single town where you can collect together a good community of Englishmen will celebrate Empire Day, and that that celebration will be known as having been organised by this Institute. I was glad to hear the testimonies which have been given as to the value of the Library ; it is one of our boasts that we have the finest Library in the Empire in matters relating to Overseas Dominions, and I am glad to receive this unsolicited testimony, not only to the excellencies of the Library, but to the courtesy and assistance which frequenters derive from the officials connected with it. Captain Slack suggested that we should go on hammering at the Postmaster-General until we are able to obtain cheaper postal rates for our Journal to other Dominions besides Canada. When I was Governor-General we were told it would almost pauperise the Imperial Government if they were to allow penny postage for four pounds of printed matter to Canada. I am glad to think, however, that Mr. Buxton was able to overcome the opposition to the scheme, and that thanks to his services and to the energy with which the Canadian Government pushed through the matter that reform has been adopted, and I quite agree it will be very useful if a similar service can be applied to other parts of the Empire as well. It has been suggested by Colonel Allen that the Institute would be much strengthened if we could only send some members of our Council or other representatives to take a holiday in the beautiful Dominion he represents. He gave me a charming and pressing invitation. I can assure you that nothing would give me greater pleasure than to pay a visit to New Zealand, but unfortunately I am not yet in a position to gratify a wish so near to my heart. I may mention that the Council recommend that one of the vacancies on the Council should be filled by Mr. Evelyn Wrench, the founder of the Overseas Club, which has now 100,000 members in all parts of the Empire, and he has been touring through New Zealand and writing home letters which make one wish to participate in the pleasant experiences he is enjoying. Allusion has been made to the importance of our Journal, and indeed, when we think that 5,000 of our 7,000 members are Overseas, and that one of the chief advantages they enjoy as members is the perusal of the Journal, one realises how important it is that no effort shall be spared to make the Journal the most powerful instrument in print for bringing about a satisfactory solution of the Empire problem. Colonel Allen told us there was one other paper which, in his opinion, was rather ahead of ours. I have ascertained that he referred to the *Round Table*. That is a periodical which comes out quarterly, and I quite agree that there is no more valuable Imperial quarterly published. I am sure Colonel Allen will be pleased when I tell him that one of the recommendations of the Council now before you is that Mr. Philip Kerr, editor of the *Round Table*, shall become a member of the Council. We all realise the advantage of making our Journal even better than it is, and our efforts shall certainly be devoted to that end. It has been suggested that the City luncheons to distinguished visitors should be given in this building instead at De Keyser's Hotel. We thought w

had hit upon a happy idea in holding those luncheons at De Keyser's, and they have become very popular. I hope that next year we shall be able to organise the City luncheons once a week. It is a good thing, I think, that these gatherings shall be within easy reach of the City. I quite agree with Mr. Saxon Mills that we should try to make the Institute a valuable bureau of information, information not only about openings in the Colonies, but also a bureau of information for our friends in the Overseas Dominions who come to pay a visit to this country. I congratulate the Fellows on this excellent meeting. There has not been one syllable of hostile criticism. On the other hand, many valuable suggestions have been made. These the Council have heard with pleasure, and you may be sure that whether they adopt them or not they will not be cast aside without patient and diligent consideration.

The motion for the adoption of the Report was agreed to.

On the motion of Sir GODFREY LAGDEN, seconded by Colonel RAWSON, Messrs. Price, Waterhouse & Co. were elected auditors for the year 1913.

# QUEBEC

THE MOST PROSPEROUS PROVINCE OF

# CANADA

Offers unrivalled opportunities for the profitable employment of capital.

Its huge forests contain pulp wood and other commercial essences in almost inexhaustible quantities.

Its numerous traction systems and thousands of industries want all the electricity which can be produced from its water-powers—only a small proportion of which are at present under exploitation.

Its rich asbestos, iron, and copper mines already form a great and profitable industry, although but a small proportion of the mineral wealth of the Province has been tapped.

Its dairying industry is exceptionally prosperous. The cheese of Quebec commands the highest prices. This is due to ideal grazing conditions brought about by its rich pastures and abundance of pure water.

To render easier and more economical the interchange and distribution of commodities, and promote the prosperity of industry and commerce, the Quebec Government has entered upon a vigorous policy of

## GOOD ROADS,

and will spend for that purpose, as rapidly as men, materials, and machinery can be obtained for building these roads,

## TEN MILLION DOLLARS,

which will provide 3,300 miles of perfect roads within the limits of the Province.

The finances of the Province of Quebec are on a sound basis. Every financial year shows a substantial surplus, which has enabled the Government, after providing amply for education and all the public services, to reduce the public debt, during the last five years, from

## SEVEN MILLIONS TO FOUR AND A HALF MILLION POUNDS,

a record which is unique in Canada!

If you contemplate investing capital in Canada, you would therefore do well to investigate the opportunities offered by Quebec.

Full Information and Particulars will gladly be sent on request addressed to—
